Exam Name: Microsoft Dynamics 365 for Sales

## 01 - Perform Configuration

### QUESTION 1

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are a Dynamics 365 for Sales system customizer.

You need to set up LinkedIn Sales Navigator Lead (member profile) on the Lead form.

Solution: Use Dynamics 365 AI for Sales.

Does the solution meet the goal?

A. Yes

B. No

**Correct Answer: B**

**Section:**

**Explanation:**

Reference: <https://docs.microsoft.com/en-us/dynamics365/customer-engagement/linkedin/add-sales-navigator-controls-forms>

### QUESTION 2

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question, you will NOT be able to return to it. As a result, these questions will not appear in the review screen. You are a Dynamics 365 for Sales system customizer.

You need to set up LinkedIn Sales Navigator Lead (member profile) on the Lead form.

Solution: Add the LinkedIn Sales Navigator Contact (member profile) control.

Does the solution meet the goal?

A. Yes

B. No

**Correct Answer: A**

**Section:**

**Explanation:**

Reference: <https://docs.microsoft.com/en-us/dynamics365/customer-engagement/linkedin/add-sales-navigator-controls-forms>

### QUESTION 3

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are a Dynamics 365 for Sales system customizer.

You need to set up LinkedIn Sales Navigator Lead (member profile) on the Lead form.

Solution: Use Unified Interface apps.

Does the solution meet the goal?

- A. Yes
- B. No

**Correct Answer: B**

**Section:**

**Explanation:**

Reference: <https://docs.microsoft.com/en-us/dynamics365/customer-engagement/linkedin/add-sales-navigator-controls-forms>

#### QUESTION 4

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A company plans to move their headquarters from the United States to Europe.

You need to round all currency values to four decimal places and display the correct currency symbol.

Solution: Change the currency decimal precision and currency display options.

Does the solution meet the goal?

- A. Yes
- B. No

**Correct Answer: A**

**Section:**

#### QUESTION 5

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A company plans to move their headquarters from the United States to Europe.

You need to round all currency values to four decimal places and display the correct currency symbol.

Solution: Change the currency code and symbol so that both are displayed.

Does the solution meet the goal?

- A. Yes
- B. No

**Correct Answer: B**

**Section:**

#### QUESTION 6

Note: This question-is part of a series of questions that present the same scenario. Each question-in the series contains a unique solution that might meet the stated goals. Some question-sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question, you will NOT be able to return to it. As a result, these questions will not appear in the review screen. A company plans to move their headquarters from the United States to Europe.

You need to round all currency values to four decimal places and display the correct currency symbol. Solution: Change the default currency.

Does the solution meet the goal?

- A. Yes
- B. No

**Correct Answer: B**

**Section:**

**QUESTION 7**

You work for a company using Dynamics 365 for Sales.

When customers call the company, they must provide their quote number. Customers report that quote numbers are too long. You need to shorten quote numbers to the minimum possible length. What should you do?

- A. Change the field type from auto number to decimal number
- B. Reduce the auto number prefix to one character
- C. Reduce the suffix length to four characters
- D. Ensure that the prefix setting is read-only

**Correct Answer: B**

**Section:**

**Explanation:**

Reference: <https://docs.microsoft.com/en-us/dynamics365/customer-engagement/admin/change-auto-number-prefix-contract-case-article-quote-order-invoice-campaign-category-knowledge-articles>

**QUESTION 8**

You are a Dynamics 365 administrator.

A sales manager changes the target goal for a salesperson from \$26,000.00 to \$20,000.00. However, the currency symbol changes from \$ to £. Other managers are not experiencing this issue. You need to fix the currency symbol for the sales manager.

What should you change?

- A. the default currency in personal options
- B. the currencies in settings
- C. the currency display option in system settings
- D. the current format in personal options

**Correct Answer: A**

**Section:**

**QUESTION 9**

You are Dynamics 365 for Sales administrator.

Sales representatives must enter estimated revenue only as an exception.

You need to ensure that estimated revenue for opportunities is automatically calculated.

What should you do?

- A. In the System Settings sales tab, change the default revenue type to System Calculated
- B. In custom controls, change the default revenue setting to System Calculated
- C. In Personalization settings for each user, change the default revenue type to System Calculated
- D. In Opportunities, change the default value of the revenue type to System Calculated

**Correct Answer: D**

**Section:**

**QUESTION 10**

You manage a default Dynamics 365 Sales environment. You are configuring a sales dashboard.

You need to create an interactive dashboard.

Which three entities can you use? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Queue Item
- B. Opportunity
- C. Knowledge Article
- D. Case
- E. Invoice

**Correct Answer: A, C, D**

**Section:**

**Explanation:**

Reference: <https://docs.microsoft.com/en-us/dynamics365/customer-engagement/customize/configure-interactive-dashboards>

**QUESTION 11**

You have opportunities that have values in multiple currencies. The currency exchange rate automatically updates. You need to ensure that currency values are accurately reported.

When is the new currency exchange rate applied to the opportunity records?

- A. when a change is made to a currency field
- B. when a user opens the opportunity record
- C. when a user manually recalculates opportunity
- D. when the calculate rollup field system job for the msdyn\_projectteam entity runs

**Correct Answer: A**

**Section:**

**QUESTION 12**

A company plans to close early on the last day of the month for an employee celebration.

You need to configure Dynamics 365 to prevent scheduling of sales support resources for that day.

Which feature should you use?

- A. Events
- B. Business closure
- C. Fiscal calendar
- D. Time off request

**Correct Answer: B**

**Section:**

**Explanation:**

Reference: <https://docs.microsoft.com/en-us/dynamics365/customer-engagement/customer-service/set-when-business-closed-csh>

**QUESTION 13**

An organization uses sales dashboards in Dynamics 365.

You need to configure a single a dashboard that includes the following data:

both complex key performance indicators that are derived from external data and custom visuals real-time data on sales performance that is based on Dynamics 365 data.

Which three actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Add the external data as virtual entities in Dynamics 365 and use it for the dashboard visualizations.
- B. Create all visuals in a Microsoft Power BI dashboard. Embed the dashboard in Dynamics 365.
- C. Create tiles and a dashboard in Microsoft Power BI.
- D. Create charts with required data in Dynamics 365.
- E. Combine Microsoft Power BI and standard charts on a standard dashboard in Dynamics 365.

**Correct Answer: A, B, E**

**Section:**

#### QUESTION 14

You are an administrator for Dynamics 365 for Sales.

You need to ensure that a user can install and configure the Social Selling Assistant.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Grant the user the sales manager role
- B. Assign the user a license for Microsoft Dynamics 365 (online) or Microsoft Social Engagement
- C. Assign the user a license for both Microsoft Dynamics 365 (online) and Microsoft Social Engagement
- D. Grant the user the system administrator or system customizer role

**Correct Answer: C, D**

**Section:**

**Explanation:**

Reference: [https://docs.microsoft.com/en-us/previous-versions/dynamicscrm-2016/administering-dynamics-365/mt793319\(v=crm.8\)](https://docs.microsoft.com/en-us/previous-versions/dynamicscrm-2016/administering-dynamics-365/mt793319(v=crm.8))

#### QUESTION 15

A company uses Dynamics 365 for Sales. The company has not made changes to any of the default security roles. You need to ensure that users can assign salespeople to sales territories.

Which security role can you use?

- A. Delegate
- B. Sales Person
- C. Sales Manager
- D. System Customizer

**Correct Answer: D**

**Section:**

**Explanation:**

Reference: <https://docs.microsoft.com/en-us/dynamics365/customer-engagement/admin/set-up-sales-territories-organize-business-markets-geographical-area>

#### QUESTION 16

A company uses Dynamics 365 for Sales to analyze their competitive wins and losses data.

Sales staff close lost opportunities and enter the Actual Revenue, Closed Date, Competitor, and the reason for the loss. You need to create a dashboard that provides information related to the last 30 days of opportunities closed as lost. Which entity should you use?

- A. Opportunity Close
- B. Opportunity
- C. Competitor
- D. Opportunity Line

**Correct Answer: B**

**Section:**

**QUESTION 17**

An organization uses Dynamics 365 for Sales.

You need to create a quote template in Microsoft Word for use in the organization.

What should you do?

- A. Create a flow
- B. Enable dynamic content in Microsoft Word
- C. Enable the Developer tab in Microsoft Word
- D. Enable VBA in Microsoft Word

**Correct Answer: C**

**Section:**

**Explanation:**

Reference:

<https://docs.microsoft.com/en-us/dynamics365/customer-engagement/admin/using-word-templates-dynamics-365>

**QUESTION 18**

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A company plans to move their headquarters from the United States to Europe.

You need to round all currency values to four decimal places and display the correct currency symbol.

Solution: Add a new currency and configure the currency precision and symbol.

Does the solution meet the goal?

- A. Yes
- B. No

**Correct Answer: A**

**Section:**

**QUESTION 19**

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen. You use business process flows for all Dynamics 365 opportunities.

Some opportunities are closed before business process flow durations are calculated.  
You need to ensure that business process flow duration values are calculated.  
Solution: When closing an opportunity, use the Close as Won dialog.  
Does the solution meet the goal?

- A. Yes
- B. No

**Correct Answer: B**  
**Section:**

#### QUESTION 20

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.  
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen. You use business process flows for all Dynamics 365 opportunities.  
Some opportunities are closed before business process flow durations are calculated.  
You need to ensure that business process flow duration values are calculated.  
Solution: On the last stage of the business process flow, select Finish.  
Does the solution meet the goal?

- A. Yes
- B. No

**Correct Answer: A**  
**Section:**

#### QUESTION 21

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.  
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen. You use business process flows for all Dynamics 365 opportunities.  
Some opportunities are closed before business process flow durations are calculated.  
You need to ensure that business process flow duration values are calculated.  
Solution: Change the opportunity to an inactive state.  
Does the solution meet the goal?

- A. Yes
- B. No

**Correct Answer: B**  
**Section:**

#### QUESTION 22

A company uses Dynamics 365 for Sales. The company has not made changes to any of the default security roles. You need to ensure that users can assign salespeople to sales territories.  
Which security role can you use?

- A. Marketing Professional
- B. Sales Person

- C. Delegate
- D. CEO - Business Manager

**Correct Answer: D**

**Section:**

**Explanation:**

Reference: <https://docs.microsoft.com/en-us/dynamics365/customer-engagement/admin/set-up-sales-territories-organize-business-markets-geographical-area>

#### QUESTION 23

You work for a company using Dynamics 365 for Sales.

When customers call the company, they must provide their quote number. Customers report that quote numbers are too long. You need to shorten quote numbers to the minimum possible length. What should you do?

- A. Reduce the auto number prefix to one character
- B. Reduce the auto number prefix to two characters
- C. Reduce the suffix length to four characters
- D. Ensure that the prefix setting is read-only

**Correct Answer: A**

**Section:**

**Explanation:**

#### QUESTION 24

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen. Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution. After you answer a question, you will NOT be able to return to it. As a result, these questions will not appear in the review screen. You are a Dynamics 365 Sales system administrator.

The sales team wants to use automated conversation starters.

You need to ensure that the controls are available to developers.

Solution: Create a subscription to Microsoft Relationship Sales and enable JavaScript and pop-up blockers. Does the solution meet the goal?

- A. Yes
- B. No

**Correct Answer: B**

**Section:**

#### QUESTION 25

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen. You are a Dynamics 365 Sales system administrator.

The sales team wants to use automated conversation starters.

You need to ensure that the controls are available to developers.

Solution: Create a subscription to Microsoft Relationship Sales, enable JavaScript, and disable pop-up blockers. Does the solution meet the goal?

- A. Yes
- B. No

**Correct Answer: A**

**Section:**

#### QUESTION 26

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen. You are a Dynamics 365 Sales system administrator.

The sales team wants to use automated conversation starters.

You need to ensure that the controls are available to developers.

Solution: Remove any subscriptions associated with Microsoft Relationship Sales and disable JavaScript. Does the solution meet the goal?

- A. Yes
- B. No

**Correct Answer: B**

**Section:**

#### QUESTION 27

You are a Dynamics 365 administrator for a company. The company's fiscal year is April 1 through March 31. You need to create a system view for all users that displays data for the current fiscal year by default.

What should you do?

- A. Set up fiscal year settings and create a view in the default solution
- B. Use date ranges to create a view in the default solution
- C. Set up fiscal year settings and create a view from the advanced find
- D. Use date ranges to create a view from the advanced find

**Correct Answer: A**

**Section:**

#### QUESTION 28

You manage a Dynamics 365 environment. You plan to implement business process flows from AppSource. You need to ensure that a user can install the business process flows.

What should you do?

- A. Assign the Dynamics 365 System Customizer role to the user
- B. Assign the Common Data Service User role to the user
- C. In the Power Apps Admin center, assign Environment Maker permissions to the user
- D. In the Office 365 Admin center, assign Application proxy permissions to the user

**Correct Answer: A**

**Section:**

**Explanation:**

Reference: <https://docs.microsoft.com/en-us/dynamics365/customerengagement/on-premises/customize/add-ready-use-business-processes>

**QUESTION 29**

You need to ensure that a user named User1 can assign salespeople to sales territories. The solution must use the principle of least privilege. To which security role should you assign User1?

- A. Sales Person
- B. Knowledge Manager
- C. System Customizer
- D. CEO - Business Manager

**Correct Answer: C**

**Section:**

**QUESTION 30**

You manage a Dynamics 365 Sales environment. Many activities are associated with opportunities. Managers must be able to determine how the relationship with customers is trending for each opportunity. You need to implement a solution. Which solution should you implement?

- A. Dynamics 365 for Sales content pack for Microsoft Power BI
- B. Social Selling Assistant
- C. LinkedIn Sales Navigator
- D. Sales Insights
- E. Relationship Assistant

**Correct Answer: D**

**Section:**

**QUESTION 31**

You are a Dynamics 365 administrator for a dental office. You need to create a process in Sales Hub to ensure that team members perform the following actions:  
Call patients to remind them about upcoming appointments.  
Update patient contact information.  
What should you create?

- A. a task flow
- B. a business rule
- C. a calendar
- D. an on-demand workflow

**Correct Answer: A**

**Section:**

**QUESTION 32**

HOTSPOT

You are a Dynamics 365 for Sales administrator. You have an interactive experience leads dashboard. You need to create a filtered view of the dashboard. What should you do? To answer, select the appropriate options in the answer area.  
NOTE: Each correct selection is worth one point.

Hot Area:

**Answer Area**

Explanation:

**QUESTION 44**

DRAG DROP

You manage the Dynamics 365 environment for Contoso, Ltd. A rule automatically creates a lead associated with an email when an email is sent to sales@contoso.com. You need to ensure that the marketing manager receives an email each time an email request is sent to sales@contoso.com. How should you configure the rule? To answer, drag the appropriate actions to the correct requirements. Each action may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Actions	Answer Area	
	Requirement	Action
Create a business process flow	Create an email.	Action
Create a child workflow		Action
Create a real-time workflow	Send the email.	Action

Correct Answer:

Actions	Answer Area	
	Requirement	Action
Create a business process flow	Create an email.	Create a real-time workflow
		Create a child workflow
	Send the email.	

Section:

Explanation:

**QUESTION 45**

DRAG DROP

You manage a Dynamics 365 environment Sales. You create the following rule items to respond to inbound emails from potential customers:

Emails that contain the words support or help must create a new high-priority case.

Emails that contain the words buy or purchase must create a warm-lead record. The words buy and purchase are more important than support or help. Emails that specifically mention ProductA must always create a hot lead for that product regardless of other words mentioned. If none of the targeted words are present in an email, a cold lead must be created. You need to configure the order in which rule items are processed.

In which order should you run the rule items? To answer, move all actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

**Actions**

- Create a hot lead
- Create a case with high priority
- Create a warm lead
- Create a cold lead

**Answer Area**

Navigation icons: left arrow, right arrow, up arrow, down arrow.

Correct Answer:

Explanation:

QUESTION 50

DRAG DROP

You use opportunities with business process flows in Dynamics 365.

You do not have insight into the amount of time spent per process and when the last stage became active. You need to create views and charts that give you this insight and that allow you to track by the owner of the opportunity. Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

**Actions**

Create a view of the business process flow entity and include duration and Active Stage Started On.

Add the owner field from the opportunity to the view.

Add the duration and active stage started on the view of the opportunity.

Create a chart on the business process flow entity and add the new view to include the needed fields.

Create a view of the opportunity entity and include the owner field.

Create a chart on the opportunity entity and use the new view to include the necessary fields.

**Answer Area**

Correct Answer:

**Actions**

Add the duration and active stage started on the view of the opportunity.

Create a chart on the business process flow entity and add the new view to include the needed fields.

Create a view of the opportunity entity and include the owner field.

**Answer Area**

Create a view of the business process flow entity and include duration and Active Stage Started On.

Create a chart on the opportunity entity and use the new view to include the necessary fields.

Add the owner field from the opportunity to the view.

**QUESTION 53**

A company is implementing Dynamics 365 Sales. The company has ten products and four territories. Each territory must have a price list specific for the territory and must use these prices as default product prices. You need to configure the price lists for the territories. What should you do?

- A. Create a product family with each product list four times. Include the territory price for each product list.
- B. Create a price list with a discount list for each territory.
- C. Create a price list for each territory and add a territory relationship record.
- D. Create one price list and margin for each territory.

**Correct Answer: C**

**Section:**

**Explanation:**

Reference:

<https://docs.microsoft.com/en-us/dynamics365/sales-enterprise/create-price-lists-price-list-items-define-pricing-products>

**QUESTION 54**

A company based in Mexico is setting up Dynamics 365 Sales. All price lists are in US dollars (USD). A sales representative sells products to customers in the United Kingdom and Spain. You need to determine the currency for the quote. Which currency will the quote use?

- A. Pound sterling
- B. Euro
- C. USD
- D. Peso

**Correct Answer: C**

**QUESTION 55**

A company has three business units. User privileges are set to ensure that users can see only records owned by their own business unit. If a contact is needed for all business units, one contact record must be created for each business unit. A contact is considered a duplicate if the First Name, Last Name, Email or Preferred Phone, and Business Unit fields match. You must ensure that duplicate records are not created for contacts. You need to create the duplicate detection rules. Which two filters should you configure? Each correct answer is part of the complete solution. NOTE: Each correct selection is worth one point.

- A. First Name and Last Name and Email
- B. First Name and Last Name and Preferred Phone
- C. First Name and Last Name and Email and Business Unit

- D. First Name and Last Name and Preferred Phone and Business Unit
- E. First Name and Last Name and Owner

**Correct Answer: C, D**

**Section:**

**Explanation:**

Reference:

<https://docs.microsoft.com/en-us/power-platform/admin/set-up-duplicate-detection-rules-keep-data-clean>

#### QUESTION 56

Sales representatives at an organization have access to the contact records in their business unit.

You need to ensure that sales representatives can access contact records in all business units that are subordinate to their business unit. Sales representatives must not have access to other records in the organization.

Which access level should you assign to the Contact entity?

- A. User
- B. Organization
- C. Parent: Child Business Unit
- D. Business Unit

**Correct Answer: C**

**Section:**

**Explanation:**

Reference:

<https://docs.microsoft.com/en-us/power-platform/admin/security-roles-privileges>

#### QUESTION 57

A company uses special pricing for bulk purchases of products.

A sales team member cannot create pricing lists for preferred customers.

You need to set up a discount price list.

What are three possible security roles that can be used? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Sales Team Member
- B. Vice President of Sales
- C. Sales Manager
- D. CEO-Business Manager
- E. President of Sales

**Correct Answer: B, C, D**

**Section:**

#### QUESTION 58

HOTSPOT

You are implementing Dynamics 365 Sales for a company that has salespeople in the following cities in the state of Florida: Jacksonville, Miami, and Tampa. The manager in Florida oversees the salespeople for all three cities.

You must set up territories by states. Each state must be a parent territory and have a different manager.  
Sales information must be shown by city and then by state.  
You need to set up territories for Florida.  
Which settings should you use? To answer, select the appropriate options in the answer area.  
Requirement Setting

**Hot Area:**

Answer Area	Requirement	Setting
	Determine the number of territories.	<ul style="list-style-type: none"><li>Four territories and zero sub-territories</li><li>Two territories and two sub-territories</li><li>One territory and three sub-territories</li><li>One territory and four sub-territories</li></ul>
	Determine how many territories in which the Jacksonville salespeople should be members.	<ul style="list-style-type: none"><li>One territory and one sub-territory: Florida and Jacksonville</li><li>One sub-territory: Jacksonville</li><li>Two territories: Florida and Jacksonville</li><li>One territory: Florida</li></ul>
	Determine how many territories the Florida sales manager should manage	<ul style="list-style-type: none"><li>One territory and zero sub-territory: Florida</li><li>One territory and three sub-territories: Florida, Jacksonville, Miami, and Tampa</li><li>Four territories: Florida, Jacksonville, Miami, and Tampa</li><li>Zero territories and three sub-territories: Jacksonville, Miami, and Tampa</li></ul>

**Answer Area:**

## Answer Area

### Requirement

### Setting

Determine the number of territories.

Four territories and zero sub-territories  
Two territories and two sub-territories  
One territory and three sub-territories  
One territory and four sub-territories

Determine how many territories in which the Jacksonville salespeople should be members.

One territory and one sub-territory: Florida and Jacksonville  
One sub-territory: Jacksonville  
Two territories: Florida and Jacksonville  
One territory: Florida

Determine how many territories the Florida sales manager should manage

One territory and zero sub-territory: Florida  
One territory and three sub-territories: Florida, Jacksonville, Miami, and Tampa  
Four territories: Florida, Jacksonville, Miami, and Tampa  
Zero territories and three sub-territories: Jacksonville, Miami, and Tampa

#### QUESTION 59

You need to ensure that a user named User1 can assign salespeople to sales territories. The solution must use the principle of least privilege. To which security role should you assign User1?

- A. Sales Manager
- B. Knowledge Manager
- C. System Customizer
- D. Common Data Service

**Correct Answer: A**

Section:

#### QUESTION 60

You are the Dynamics 365 administrator for a group of financial advisors. Advisors must use one business process flow to guide them through the standard lead to invoice process. Each entity has the following number of stages and steps:

Entity	Number of Stages	Number of Steps per Stage
Lead	10	10
Opportunity	10	10
Quote	10	10
Order	10	10
Invoice	10	10

You need to modify the business process flow to make it valid. What should you reduce?

- A. number of entities
- B. total number of stages
- C. total number of steps
- D. number of steps per stages

**Correct Answer: B**

**Section:**

**Explanation:**

The total number of stages here would be 50 which is more than the maximum limit of 30.

Reference:

<https://docs.microsoft.com/en-us/dynamics365/customerengagement/on-premises/customize/business-process-flows-overview?view=op-9-1>

**QUESTION 61**

HOTSPOT

You are working a list of leads in Dynamics 365 Sales.

You have a custom security role that contains the following privileges:

create and edit user-level privileges on the lead and note entities

business unit-level append, append to, and assign privileges on the lead and note entities

organization-level share privileges on the lead and note entities

You need to perform the following actions on leads:

Add notes to leads

Assign leads to other users

How should you manage leads? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Hot Area:**

Scenario	Privilege
Add notes to leads	<ul style="list-style-type: none"> <li>Leads owned by people in your business unit only</li> <li>Leads owned by you only</li> <li>Leads owned by anyone in your organization</li> </ul>
Assign leads to other users	<ul style="list-style-type: none"> <li>Leads owned by your business unit and its child business units only</li> <li>Leads owned by people in your business unit only</li> <li>Leads owned by anyone in your organization</li> </ul>

Answer Area:

Scenario	Privilege
Add notes to leads	<ul style="list-style-type: none"> <li>Leads owned by people in your business unit only</li> <li>Leads owned by you only</li> <li>Leads owned by anyone in your organization</li> </ul>
Assign leads to other users	<ul style="list-style-type: none"> <li>Leads owned by your business unit and its child business units only</li> <li>Leads owned by people in your business unit only</li> <li>Leads owned by anyone in your organization</li> </ul>

QUESTION 69

A company uses Dynamics 365 Sales Professional.

A new enterprise sales team must be created. The sales manager will be responsible for adding members and removing members from the team.

You need to create the new sales team.

Which two values must you configure? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Team administrator
- B. Team channel name
- C. Team name
- D. Team description
- E. Business unit name

**Correct Answer: C, E**

### QUESTION 72

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are configuring Dynamics 365 Sales for a US-based company as follows:

- Utah to California is the West territory
- Illinois to Colorado is the Central territory.
- Maine to Indiana is the East territory.

The company wants the territories set up as follows:

Salespersons 1 and 2 sell in the West territory.  
Salespersons 5 and 6 sell in the Central territory.  
Salespersons 3 and 4 sell in the East territory.  
Postal code for each state used as the location.  
You need to set up the territories.

Solution:

Create the West territory, add the manager, and save.  
Repeat for the Central and East territories.  
Add the members for each territory.  
Select Related and add the Resource territories.  
Does the solution meet the goal?

- A. Yes
- B. No

**Correct Answer: B**

**Section:**

**Explanation:**

**QUESTION 76**

HOTSPOT

A company uses Dynamics 365 Sales. You add the Kanban control to the Opportunity entity.

You plan to implement Kanban views in the system. The implementation must accomplish the following:

Set up opportunities so they are visible in Kanban views.

Ensure that the default view displays the opportunities in the sales cycle.

Ensure that users know how to change the status in the Kanban status view without opening the full record.

You need to complete the Kanban setup.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Hot Area:**

## Answer Area

### Requirement

### Action

Set up Kanban.

	▼
In App Settings, select the correct setting.	
On the View menu, select the correct view.	
In Advanced settings, select the correct setting.	
On the command bar, select Show As, and then select the correct setting.	

View the opportunities in the sales cycle.

	▼
Change the Kanban type to Status.	
Change the view to All Opportunities.	
Change the view to Partner Opportunities.	
Change the Kanban type to a business process flow.	

Change the status to the same view.

	▼
Drag the opportunity to another column.	
Create a new opportunity with the correct status.	
Drag the opportunity to the bottom of the column.	
Create a lead and qualify the lead with the new status.	

Answer Area:

### QUESTION 80

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You use business process flows for all Dynamics 365 opportunities.

Some opportunities are closed before business process flow durations are calculated.

You need to ensure that business process flow duration values are calculated.

Solution: At any stage in the business process flow prior to the final stage, select Finish.

Does the solution meet the goal?

A. Yes

B. No

**Correct Answer: A**

**Section:**

**Explanation:**

Reference:

<https://www.itaintboring.com/dynamics-crm/dynamics-how-process-duration-is-calculated/>

## **02 - Perform Configuration**

Background

Humongous Insurance provides fleet automotive insurance. The company's accounting year is July 1st-June 31st.

They have experienced rapid growth by acquiring brokerages that have locations in Canada, the United States, and the United Kingdom.

The company is making a big push for the start of their second quarter on October 1st.

Current environment

United States salespeople are located in either the north, east, south, west, or national territory. Only national territory sales team members can send quotes and invoices across multiple territories.

Sales managers route leads based on territory.

Salesperson1 and Salesperson2 are part of the south region and the national account, respectively.

Salespeople cannot accurately report progression of sales and whether they are closed or still in process. Manager and underwriter approval is communicated by email.

Many salespeople use different quote layouts.

Requirements

Territories

Each territory must be set up as a Business Unit for security.

Each territory must have the ability to qualify its own leads.

Security

National sales team members must have privileges in order to see sales and account information managed by the regional sales teams. Configure appropriate security for national and each regional sales.

Goals

Salespeople's goals must roll up to their manager's goal.

Goal metrics need to automatically calculate every 12 hours.

Quotes

Set up version traceability for quotes.

Quotes must be marked with the word "Final" when approved.

Quotes and orders must be generated in their client's currency.

Quotes and invoices must be able to be viewed across a variety of devices.

Pricing must be standardized for insurance products while supporting tiered pricing across national and regional accounts.

Opportunities

Closed opportunities that are won or lost must capture competitor information. The company wants a visualization built for the categories related to why the opportunities closed a certain way. When an opportunity is nearing time to quote, products should be added to the opportunity.

Other requirements

Simplify data entry and reduce dual data entry.

Help salespeople and their managers keep track of where they are in the sales process.

Use out-of-the-box reports where possible.

Generate invoice numbers automatically.

Begin invoice numbers with the letters INV.

Allow managers to be able to view a diagram and drill down to leads converted in the last 30 days.

Issues

### **QUESTION 1**

You need to ensure that sales numbers reflect the accounting calendar.

What should you configure?

- A. Rollup Queries
- B. Business Closures
- C. Sales Territories
- D. Fiscal Year Settings

**Correct Answer: D**

**Section:**

**QUESTION 2**

HOTSPOT

You need to configure the system for incoming email to support creation of leads from email requirements.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Hot Area:**

**Answer Area**

Requirement	Action
Create leads from incoming emails	<div style="border: 1px solid gray; padding: 2px;"> <div style="background-color: #f0f0f0; padding: 2px; text-align: right;">▼</div> <div style="padding: 2px;"> <p>Create a Queue and Record Creation Rule</p> <p>Create a Workflow for incoming emails</p> <p>Create an Action to trigger a plug-in</p> </div> </div>

#### QUESTION 5

HOTSPOT

You need to set up goals for the salespeople.

How should you set up the configurations? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Configuration	Scope
Goal calculation	<input type="text" value=""/> System Manual Recalculate as needed Business entity
Goal type	<input type="text" value=""/> Child Parent Stretch

**Answer Area:**

The screenshot shows a configuration interface with two main sections: 'Configuration' and 'Scope'. Under 'Configuration', there are two fields: 'Goal calculation' and 'Goal type'. Under 'Scope', there are two dropdown menus. The first dropdown menu is open, showing three options: 'System' (highlighted in green), 'Manual Recalculate as needed', and 'Business entity'. The second dropdown menu is also open, showing three options: 'Child' (highlighted in green), 'Parent', and 'Stretch'.

**Section:**

**Explanation:**

Reference:

<https://docs.microsoft.com/en-us/dynamics365/sales-enterprise/goals-overview>

**03 - Perform Configuration**

**Background**

Bellows College has several sports teams. Sporting events take place throughout the year. Processes for managing and selling tickets to events are very outdated. The college uses Microsoft Excel to track who has paid for each private box seat for each season. The college uses a paper-based system to manage individual ticket sales. Bellows often loses money on ticket sales due to lack of accurate purchasing information. The college currently does not support ticket sales on the day of a sporting event. All tickets must be purchased in advance.

Bellows College plans to streamline processes for selling tickets to sporting events. The organization needs an updated system that will support internal sales people and track all ticket sales for a season.

**Sales team**

Bellows College has inside phone sales representatives and regional sales representatives that are assigned to specific sales territories. Inside phones sales representatives primarily handle individual cash or credit card ticket sales. Regional sales representatives primarily handle group and private box sales. Phone inquiries for group and private box sales are entered into the system and assigned to the appropriate regional representative.

**Dynamics 365**

Bellows College has purchased Microsoft Dynamics 365 Sales to help manage their ticket sales. You are hired to configure the system to meet the college's needs.

The college has identified the following requirements for the new system:

Enforce repeatable steps to promote and increase efficiency and consistency for ticket sales across all sports and venues. Calculate sales margins based on base ticket prices with discounts for group and alumni sales.

Maximize private box sales.

Provide visibility into all potential and pending sales.

Track and report follow up activities performed by all sales representatives.

**Current processes**

**Ticket sales**

Ticket sales are completed and displayed based on the college's fiscal year which begins July 1 and ends June 30.

Ticket sales for existing customers will be entered as new opportunities for tracking and reporting purposes. To facilitate timely follow-up (and sales representative accountability), a phone call activity will be auto-generated every time a new opportunity is created.

Ticket sales for new customers will be entered in the solution as leads. Leads will have the following statuses: Open, Qualified, and Disqualified. Status values cannot be customized. Status values cannot be customized. Status reasons can be customized.

### Ticket prices

The standard ticket price for all sporting events is \$50. Non-alumni ticket purchases are priced based on the standard rate. Alumni ticket purchases are priced at the current cost. This season the current cost is \$35 per ticket. All sports are priced on a markup, except for football. Football is priced based on a hard profit. The college has the following markup and margin policies for the three categories of ticket purchasers:

Purchaser	Markup	Margin
Alumni	10 percent	5 percent
Student	0 percent	0 percent
Non-alumni	0 percent	12 percent

Ticket package discounts are available for group purchases. The following table shows pricing:

# of Tickets for Group	Discount price/ticket
Alumni – 10	\$33
Alumni – 20	\$31
Alumni > 20	\$30
Non-alumni – 10	\$48
Non-alumni – 20	\$45
Non- alumni > 20	\$43

### Private box seats

Because of the limited number of private box seats, private box seats sell out quickly. These seats are offered to current renters first, then alumni. Remaining box seat tickets are made available to others from year to year. The dean of the college has expressed the desire to personally call the CEOs or primary decision makers of groups to thank them for renewing their private box rentals.

Private box sales for existing customers will be entered as opportunities and converted to orders when finalized. Private box and group sales for new customers will be entered as leads and will follow a standardized sales process. To support reporting, pending new customer sales will go through a verification process using the stages New, Pending Approval, Approved.

### Requirements

#### Accounting

Budgets and taxes must be tracked over an annual accounting period. The name of the accounting period must be displayed based upon the July 1 date. The accounting period must support abbreviations and must be divisible into four quarters.

Invoices must include:

Price List Products: Products tied to a price list

Non-catalog Products: Existing products not part of the product catalog

Opportunity Products: Products from a previously created opportunity

Product prices on the invoice can be changed at the salesperson's discretion

#### System configuration

The system must be set up as follows:

Individual cash and credit cards sales will be entered as orders in the system.

New opportunities will automatically generate a required phone call activity for the assigned sales representative to be completed within 5 days. Valid outcomes of the call will be set to Connected, Left Message, and Wrong Number when closed.

Non-renewals of private box rentals should be designated with the following outcomes for tracking and reporting purposes: Not interested, Budget cuts, No Longer in business, Other. If Other is chosen, the sales representative must provide additional information in the provided text box.

#### Tickets

The ticket manager must be able to create discounts for volume purchases of tickets for either groups or bundles of games.

The ticket manager must be able to calculate the best margins for ticket sales. They need to calculate prices as percentage of costs.

#### Reporting

The school's athletic director needs a fiscal year report that includes specific formatting based on a defined template. The report must contain a chart that displays the type of ticket purchaser (alumni, non-alumni, and student).

All sales reporting must be completed by using Dynamics 365 for Sales. Bellows College has purchased the online version of the Sales Content Pack for BI to allow for visualizations and the creation of dashboards for ticket sales. The sales team needs to use a secured connection to access the Bellows College Power BI dashboard.

Sales team members need the following report types to meet reporting needs:

Report	Report description
Orders	Provides a view of ticket orders and line items.
Discounts by Number of Employees	Provides a custom report to display discounts provided based upon number of employees within a customer organization.
Standings Report	Provides a report hosted by a third party of current team standings.
Branding Report	Provides images of team logos and fonts. This report never changes.
Mobile Salesperson Report	Provides the ability to create PivotTables for mobile sales team members when connected to a network.

Problem statements

The sales manager is concerned with the lack of sales from one of the sales representatives in comparison to the other sales representatives. The legacy system does not provide enough data to allow the manager to give proper feedback or guidance.

The sales manager has received emails from a potential private box customer named Contoso, Ltd. confirming that they have not had any contact from any sales representative even though they are ready to purchase group tickets.

#### QUESTION 1

You need to create a chart for the athletic director.

What should you do?

- A. Use purchaser, markup, and margin on the X-axis. Use amount of sales on the Y-axis.
- B. Use the ticket type as the X-axis. Use amount of sales on the Y-axis.
- C. Use the ticket type on the X-axis. Use margins multiplied by cost on Y-axis.
- D. Use discount price on the X-axis. Use the number of tickets for groups on the Y-axis.

**Correct Answer: B**

**Section:**

**Explanation:**

The school's athletic director needs a fiscal year report that includes specific formatting based on a defined template. The report must contain a chart that displays the type of ticket purchaser (alumni, non-alumni, and student).

#### QUESTION 2

You need to increase efficiency and consistency for ticket sales to meet company requirements.

What should you create?

- A. a Microsoft Flow workflow
- B. a playbook
- C. a Lifecycle Services (LCS) package

**Correct Answer: B**

**Section:**

**Explanation:**

Enforce repeatable steps to promote and increase efficiency and consistency for ticket sales across all sports and venues.

Reference: <https://docs.microsoft.com/en-us/dynamics365/sales-enterprise/enforce-best-practices-playbooks>

**QUESTION 3**

### QUESTION 5

You need to implement dashboards.

Which URL should you use?

- A. <https://bellowscollege.crm.dynamics.com>
- B. <http://bellowscollege.crm.dynamics.com>
- C. <https://bellowscollege.dynamics.com>
- D. <https://crm.bellowscollege.dynamics.com>

**Correct Answer: A**

**Section:**

**Explanation:**

Reference:

<https://carldesouza.com/install-power-bi-dynamics-365-content-pack/>

#### 04 - Perform Configuration

Background

A company owns a group of theaters that stage live performances. Tickets to shows are sold by individual representatives by using a mobile app. Each theater has a manager. The managers rotate between theaters every six months.

The company plans to implement Dynamics 365 Sales.

Current environment

The company uses the following pricing structure for tickets:

Quantity tickets per show	Pricing per ticket
Fewer than 10	\$50.00
11 or more but fewer than 25	10 percent off ticket price
More than 26	15 percent off ticket price

Representatives create Microsoft Word documents to use as invoices. Pricing for tickets is often inconsistent. Ticket sales are often lost because customers go to other shows.

Requirements

Business cards

The business card of every group sales customer must be scanned and the image saved with the contact record. A customer's business card must be scanned even if the customer has been to the theatre before.

Business cards must show up on all contact forms.

Salespeople

Each salesperson needs to sell a certain amount of tickets per month.

The number of tickets each salesperson sells must be totalled only at the end of the month, before the monthly meeting between the salesperson and their manager. Salespeople must not be able to check the quantity sold in the system daily.

Opportunities

The name of the sales manager must be added to opportunity records when sales representatives close opportunities. Opportunities that are lost must include the reasons other show and not interested.

Some of the opportunities who order a large quantity of tickets every week want quotes quickly on various quantities. They want it broken down as follows:

- Price breakout by ticket
- Quantity discount amount
- Original ticket price

Orders

Customers who buy a large quantity of tickets to a show must always get a quote first.

Orders must always be created from the Quote record when it is a large purchase.

Customers who buy a smaller quantity of tickets that do not have quotes must have an invoice sent to them.

Data Analysis

Analyze email messages that pertain to ticket sales of the shows.

Analyze relationships to help with potential sales of friends and coworkers for potential ticket buyers. Analyze accounts and assess the account representative's relationship with the customer to gauge the level of communication.

Visuals

A Tickets dashboard for all cashiers must be created that contains the following bar charts:

all the tickets sold for each show

all the tickets available for each show

accounts that have purchased groups of 10 or more tickets

purchased tickets by age groups

Shows

Representatives must track which shows customers go to when they do not purchase the tickets to their shows. This information must be entered in the records. Every time a potential large sale is lost, the representative needs to ask the customer which show ticket was purchased instead of their show. Shows at other theatres must be updated on a monthly basis.

Quantity discounts and bulk purchase for different shows must be consistent

Issues

### QUESTION 1

You need to make the appropriate change to the system to ensure that statistics are correct in time for each manager/salesperson meeting. What should you do?

- A. Create a workflow for the Goals entity
- B. In the Goals section of App Settings, select Actuals
- C. In the Business Management section of Settings, configure Goal Metrics
- D. In the Goals Settings section of App Settings, select Rollup recurrence

**Correct Answer: D**

**Section:**

**Explanation:**

The number of tickets each salesperson sells must be totalled only at the end of the month, before the monthly meeting between the salesperson and their manager. Salespeople must not be able to check the quantity sold in the system daily.

### QUESTION 2

You need to determine the cause of the issue with desktop users and business cards.

What is the cause of the issue?

- A. The field needs to be added to the form
- B. Show image on the form is not selected in Form Properties
- C. The users do not have the appropriate permissions
- D. A business rule needs to be set up to show the field
- E. The AI Builder Business Card control needs to be configured for the field on the form

**Correct Answer: B**

**Section:**

### QUESTION 3

HOTSPOT

You need to resolve the issues on the ticket's dashboard.

Which configurations should you change? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

- 
- Add the security role to the manager's user ID

### Answer Area

Information	Action
Price lists	Add the manager's user ID to the correct business unit
Competitor list	Export the list to a file

Section:

Explanation:

### 05 - Perform Configuration

Background

Contoso, Ltd. manufactures electronic components for robotic assembly machines. The company specializes in wiring harnesses that are made to customer specifications.

The company's corporate office and a manufacturing plant are in Detroit. The company also has offices and manufacturing plants in the following countries:

China

Germany

Mexico

United Kingdom (UK)

Current environment

Sales

Customers who have operations in more than one country are managed by the sales team within the country from which a request originated. However, it is difficult to get information about sales for these customers. Each salesperson manually creates customer quotes using Microsoft Word and Excel templates. This causes pricing inconsistencies, which is affecting profitability. Customers who have total sales over \$1,5M per year receive special Preferred Customer discount pricing on products and services. Costs, pricing, and product availability vary greatly by country.

Sales teams

Each office has a dedicated sales team. Sales are managed by a global team in countries without a sales office. Each sales team has a projected revenue target that is tied to the factory capacity in their country, except for the global team. The global team's projected revenue target is derived using a percentage of their actual sales from the previous year.

Each sales team maintains a spreadsheet in which they record customer requests for quotes (RFQs). The spreadsheets are stored on a network drive. Sales team revenue targets are set yearly based on

manufacturing capacities at each plant.

Individual sales targets are based on product lines by quarter.

Current RFQ process

The company defines the following process for processing RFQs:

Requirements

General setup

Standard functionality must be used when possible.

All open RFQs must be imported into the solution.

All information must be accessible to the entire executive management team.

Country-specific sales information must be accessible only to sales representatives assigned to those teams. Sales and quote processes must be standardized across all sales divisions.

Sales territories must be set up for each country as well as for a global territory.

The global team will take over the management of RFQs for customers who have operations in more than one region. Due to regulatory considerations, the solution must be able to limit the kinds of products that can be sold by region.

RFQ management

New RFQs must be entered initially into the system as Leads until they are reviewed.

The default forecast categories must be used.

Standardized quote formats and product pricing must be enforced across all sales offices.

All tasks and follow-up activities with customers to close RFQs must be associated directly with the RFQs.

Credit and reference checks

All new customers must undergo credit and reference checks before estimates are created for any RFQs. This information will be recorded in a new custom field called Credit Check that has a Yes/No value. The finance manager must be assigned the credit and reference review when an RFQ is ready for review. If a customer's credit and reference review is unfavorable, the finance manager must follow up with the customer and the sales representative by phone. The customer's credit report must be added to the RFQ as a permanent record and for audit purposes.

The solution must provide both a sample script that the finance manager can use as well as a checklist of how to perform the check.

Reporting

The sales manager dashboard must show the following data:

Projected revenue and profitability per country by month and fiscal year.

Projected and current product sales per country by month and fiscal year.

RFQ Won/Loss revenue comparison by fiscal quarter.

RFQ status by sales representative within their territory.

RFQs that are awaiting management approval and how long they have been waiting.

Sales lost to competitors month over month.

Managers must also be able to track how long an RFQ has been awaiting credit and reference checks, and how many RFQs have had unfavorable results from credit or reference checks.

Issues

PreferredCustomerA, who has factories in Germany, the UK, and Canada, reports that their sales representatives give different pricing and discounts to customers depending on the country in which the RFQ is initiated. Several RFQs that have passed management review but failed standard credit checks have been issued quotes. To prevent this, credit checks must now be done before the management approval meeting. Several imported RFQs contain quotes for discontinued products. Updated quotes with current product offers need to be sent to customers. CompanyB needs pricing for harnesses for their plants in Germany, the UK, and Argentina.

CompanyC received a quote for harnesses for their US home office. They need the products for their Canadian plant. CompanyD wants sales orders and shipments sent directly to VendorZ, who manufactures several subassemblies for them. VendorZ also builds components for other customers as well as for Contoso, Ltd. The chief financial officer (CFO) is concerned about the amount of work that the new credit and reference checks will create. Therefore, a

time-study needs to be initiated for that work to see whether an additional person needs to be hired.

#### QUESTION 1

You need to set up the required sales tracking for multinational customers.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Create a primary account for the customer and contacts for each country of operation.
- B. Create each country sales territory as a sub-territory of the global territory.
- C. Associate the customer accounts for each country with the primary account.
- D. Create a primary account for the customer and assign it to the global territory.
- E. Associate the accounts in each country with the country sales territory in which it is located.

**Correct Answer: B, E**

**Section:****Explanation:**

Reference:

<https://docs.microsoft.com/en-us/dynamics365/sales-enterprise/enforce-best-practices-playbooks>**06 - Perform Configuration**

Liberty's Delightful Sinful Bakery & Cafe (Liberty's) sells baked goods to only commercial customers for resale from its East and West territories. The bakery acquired a company that it will incorporate as its retail line of business. Each territory will contain a Retail and Commercial territory.

Liberty's has two territories, each divided as shown below.

Configuration:

- The Commercial territory has a different price list than the Retail territory.
- The criteria used to measure the probability of a sale will be different for retail and commercial. • All loaves cost the same and all buns cost the same.
- Auto-create records for newly qualified leads is turned on to simplify the lead qualification process.
- Liberty's logs all phone calls, appointments, and emails in Dynamics 365 Sales.
- Accounts were imported for the Retail territory.
- Liberty's finds that the information on their accounts and contacts are often outdated.
- Liberty's must use Microsoft Relationship Sales.

## Discounts

To add the pricing for retail, Liberty's will update all price lists to reflect the retail price and provide the following discounts:

- 10 percent off for 10-19 items
- 20 percent off for 20-49 items
- 30 percent off for more than 50 items

## Job roles

### EmployeeA:

- Manages the Commercial territory
- Will also manage the new Retail territory starting next month
- Responsible for all sales functions, including forecasting and product management

### EmployeeB:

- Hired for retail sales only
- Must create new accounts and contacts but should not be able to create or edit products

### EmployeeC:

- Serves as a Liberty's executive
- Requires read-only access to Contacts and Accounts tables in Dynamics 365 Sales

### EmployeeD:

- Serves as an operations manager, responsible for managing orders and deliveries

## General

- With the acquisition of the retail company, new bread types must be added. These bread types must apply to loaves and buns.
- A lead must be generated from an activity record.
- Liberty's wants to improve accuracy about Accounts and Contacts but does not want to track messages generated outside of the system.
- With the addition of the retail branch, Liberty's must create a forecasting model to estimate the revenue for the next quarter.
- If a phone call is received from a new potential customer, a lead must be generated from the activity record.
- Liberty's must automatically maintain current account and contact information.
- The system must be able to rate the health of an opportunity based on the following scale:
  - o 1 = Good
  - o 2 = Fair
  - o 3 = Poor
- The health rating must include all conversations and interactions, including those on social media. Issues
- A duplicate detection rule is set up, and the flag to check for duplicates is turned on; however, duplicates still exist.
- EmployeeB and other employees notice that all their opportunities are rated as Good, but when reviewing the activities, they see that the rating should be Poor.
- User1 complains that the user's message responses to leads in LinkedIn are missing.
- TesterA cannot find the model-driven app to test.
- Liberty's receives an email with a customer order. When the customer calls to pay with a credit card over the phone, Liberty's cannot find the customer order.

## QUESTION 1

You need to solve the TesterA issue. What should you do?

- A. Select Enable Dynamics 365 for mobile.
- B. Log out and log back in to view non-production apps.
- C. Select Apps from the non-production apps.
- D. Customize the mobile app to match the model-driven app.

**Correct Answer: C**

**Section:**

## QUESTION 2

HOTSPOT

You need to ensure that employees have the appropriate territory set up.

What should you do? To answer, select the appropriate option in the answer area.  
NOTE: Each correct selection is worth one point.

Scenario	Action
Incorporate bread types from retail.	<ul style="list-style-type: none"><li>Create a product family.</li><li>Create a unit.</li><li>Create a price list item.</li><li>Create a product family.</li><li>Create a product property.</li></ul>
An existing opportunity wants to change an order to one of the new bread types.	<ul style="list-style-type: none"><li>Select the new bread type in the opportunity product.</li><li>Update the price list.</li><li>Modify and publish the product.</li><li>Delete the opportunity product and readd the item.</li><li>Select the new bread type in the opportunity product.</li></ul>

**Answer Area:**

## Answer Area

### Scenario

Incorporate bread types from retail.

An existing opportunity wants to change an order to one of the new bread types.

### Action

Create a product family.	▼
Create a unit.	
Create a price list item.	
Create a product family.	
Create a product property.	
Select the new bread type in the opportunity product.	▼
Update the price list.	
Modify and publish the product.	
Delete the opportunity product and readd the item.	
Select the new bread type in the opportunity product.

You need to resolve the issue reported by User1.  
 Which three actions should you perform? Each correct answer presents part of the solution.  
 NOTE: Each correct selection is worth one point.

- A. Configure the connection graph.
- B. Configure LinkedIn Sales Navigator Lead lookup control.
- C. Create a tab for LinkedIn Sales Navigator and make it visible.
- D. install LinkedIn Sales Navigator and enable it.
- E. Enable CRM sync and activity writeback.

**Correct Answer: A, B, E**

**Section:**

**QUESTION 8**

**DRAG DROP**

You need to ensure that the Accounts table data does not contain duplicates.  
 Which three actions should you perform in sequence? To answer move the appropriate actions from the list of actions to the answer area and arrange them in the correct order. NOTE: More than one order of answer choices is correct. You will receive credit for any of the correct orders you select.

**Select and Place:**

Actions	Answer area
Delete the imported records from the Imports list.	1
Delete the import source file from the Imports list.	2
Run a duplicate detection job on Accounts.	3
Run a bulk delete job on duplicate Accounts.	
Reimport the file.	
Turn on the duplicate detection rule.	

**Correct Answer:**

Actions	Answer area
Delete the imported records from the Imports list.	1 Run a bulk delete job on duplicate Accounts.
Delete the import source file from the Imports list.	2 Reimport the file.
Run a duplicate detection job on Accounts.	3 Turn on the duplicate detection rule.

**QUESTION 9**

You need to optimize generated forecasts. What should you create?

- A. one predictive opportunity scoring model
- B. two predictive opportunity scoring models
- C. two predictive lead scoring models
- D. one predictive lead scoring model

**Correct Answer: B**

**Section:**

**QUESTION 10**

You need to resolve the missing credit card order.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Create the order.
- B. Qualify a lead.
- C. Create a contact
- D. Convert the email.

**Correct Answer: C, D**

**Section:**

**QUESTION 11**

You need to fix the opportunity rating issue that EmployeeB reports. What should you update?

- A. Exchange data
- B. Activity influence
- C. Health score grading
- D. Communication frequency

**Correct Answer: C**

**Section:**

**QUESTION 12**

DRAG DROP

You need to assign the appropriate out-of-the-box security roles.

Which roles should you assign? To answer, drag the appropriate roles to the correct users. Each role may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. NOTE: Each correct selection is worth one point.

**Select and Place:**

**Roles**

Salesperson
Sales manager
Sales team member
Vice President of Sales

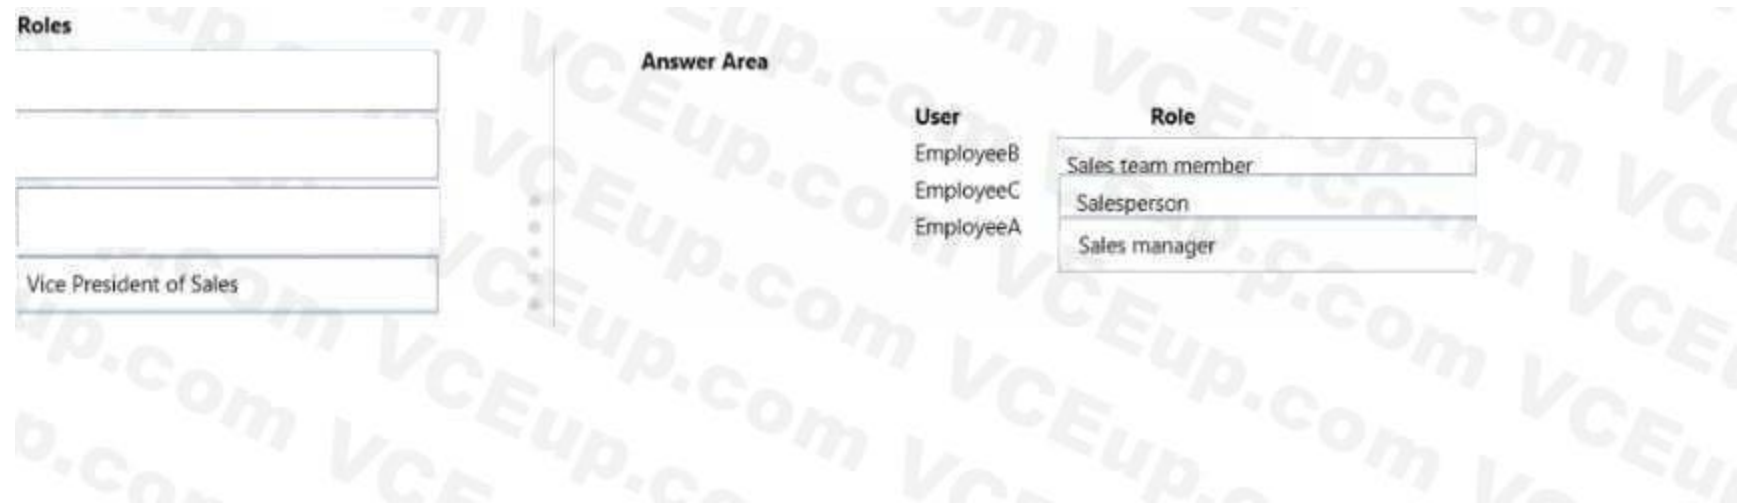

**Answer Area**

**User**

- EmployeeB
- EmployeeC
- EmployeeA

**Role**

**QUESTION 1**

A company uses Dynamics 365 Sales.

You are setting up the product catalog for customers. Pricing must be set up as follows:

- 1 can - \$5.00
- 6 cans - \$28.00
- 1 case = \$100.00

Partial orders are allowed. A customer wants to buy 2.5 cases of a product. The customer receives a system error when trying to enter the quantity. You need to resolve the issue. What should you modify?

- A. Amount
- B. Discount List
- C. Price List
- D. Quantity Selling Option

**Correct Answer: A**

**Section:**

**QUESTION 2**

A company uses Dynamics 365 Sales. The company uses their organizational structure to determine how to aggregate forecasts for each year. The company divides a business unit into three separate units. Each unit will have a new manager.

You need to update the quotas for each user for the current fiscal year's forecast.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Update the target goal amount for each user.
- B. Upload the new quota amounts for each user.
- C. Create a new relationship between sites.
- D. Create and assign users to new resource groups for each manager.
- E. Adjust the forecast values directly.

F. Assign the users to their new managers.

**Correct Answer: B, F**

**Section:**

**QUESTION 3**

A company uses Dynamics 365 Sales.

A sales manager wants a salesperson to send an email activity to a marketing list. The manager wants to track the successes and failures of the emails in one view. The salesperson must be limited to sending only this email activity to the marketing list. You need to recommend which feature the manager should use.

What should you recommend?

- A. quick campaign
- B. customer Journey
- C. campaign
- D. direct email

**Correct Answer: A**

**Section:**

**QUESTION 4**

A company uses Dynamics 365 Sales insights predictive modeling. The prediction accuracy score no longer meets the company's standards. You need to resolve this issue. What should you do?

- A. Change the business process flow that it is referencing.
- B. Retrain the model.
- C. Add a new model.
- D. Refresh the data.

**Correct Answer: B**

**Section:**

**QUESTION 5**

A company uses Dynamics 365 Sales.

You need to configure the Sales Insights sales accelerator.

What should you create?

- A. Insight cards
- B. Leads
- C. Communication frequency
- D. Sequences

**Correct Answer: C**

**Section:**

**QUESTION 6**

HOTSPOT

A company uses Dynamics 365 Sales. The company plans to use Microsoft SharePoint to organize documents. All access to documents must be through Dynamics 365 Sales. You must limit document access to only

salespeople. You need to set up SharePoint for use.

What should you set up for each requirement? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

**Hot Area:**

Requirement	Setup
Document management through Dynamics 365 Sales	Configure document management and SharePoint Online. <input checked="" type="checkbox"/>
	Configure Exchange Online and SharePoint Online. <input type="checkbox"/>
	Configure SharePoint Connector and SharePoint Online. <input checked="" type="checkbox"/>
	Configure document management and SharePoint Online. <input type="checkbox"/>
Access limited to salespeople	Assign security roles in Dynamics 365 Sales only. <input checked="" type="checkbox"/>
	Assign security in SharePoint only. <input type="checkbox"/>
	Assign security roles in Dynamics 365 Sales only. <input checked="" type="checkbox"/>
	Assign Microsoft Security Group permissions in SharePoint. <input type="checkbox"/>
	Assign security in SharePoint and security roles in Dynamics 365 Sales. <input type="checkbox"/>

**Answer Area:**

DRAG DROP

You are setting up the product catalog in Dynamics 365 Sales.

The following promotions must be set up in the product catalog:

- Customers receive a free mug with the purchase of one can of soda.
- Customers receive a five percent price decrease on the purchase of 12 cases of soda.
- Soda has various prices based on whether the purchase is for one can, one six-pack, or a case.

You need to choose which feature to set up in the product catalog.

Which feature should you use? To answer, drag the appropriate features to the correct requirements. Each feature may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

**Select and Place:**

Features	Answer Area
Unit group	
Discount list	
Product family	
Product bundle	

Requirement	Feature
Free mug with purchases of single can of soda	
Adjusted price for purchase of 12 cases of soda	
Price based on six-pack of soda	

**Correct Answer:**

Features	Answer Area
Product family	

Requirement	Feature
Free mug with purchases of single can of soda	Product bundle
Adjusted price for purchase of 12 cases of soda	Discount list
Price based on six-pack of soda	Unit group

**QUESTION 33**

A company uses Dynamics 365 Sales. You have administrator privileges. The sales manager plans to require the sales team to track emails from Microsoft Outlook. You need to direct users to where they can deploy their own App for Outlook instance. To where should you direct them?

- A. Dynamics 365 App for Outlook area
- B. Microsoft AppSource
- C. Email settings
- D. Advanced settings

**Correct Answer: A**

**Section:**

**QUESTION 34**

A company uses Dynamics 365 Sales.  
You need to implement the Microsoft Relationship Sales solution.  
Which add-on should you install?

- A. Sales Insights
- B. Customer Insights
- C. Sales accelerator
- D. Sales Navigator

**Correct Answer: D**

**Section:**

**QUESTION 35**

You are configuring Dynamics 365 Sales for a US-based company as follows:

- Utah to California is the West territory.
- Illinois to Colorado is the Central territory.
- Maine to Indiana is the East territory.

The company wants the territories set up as follows:

- Salespersons 1 and 2 sell in the West territory
- Salespersons 5 and 6 sell in the Central territory.
- Salespersons 3 and 4 sell in the East territory.
- Postal code for each state used as the location.

You need to set up the territories.

Solution:

- Create the West territory and add the manager.
- Add members and save.
- Repeat for the Central and East territories.

Does the solution meet the goal?

- A. Yes
- B. No

**Correct Answer: B**

**Section:**

**QUESTION 36**

DRAG DROP

A company sells products and services. The company sales team uses the leads form to track all prospects. The team uses The following columns on the form:

Form column	Column type
Timeframe	Choice
Type	Choice
Product	Choices (multi-select)
Other Product	Text

The company wants to avoid custom development where possible.

The sales team requires only the following functionality to appear:

- Type when Timeframe Equals Less than 6 months

- Product when Type Equals Products
  - Other Product when Product contains the product Other
- You need to update the form.

What should you configure for each scenario? To answer, drag the appropriate views to the correct scenarios. Each view may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

**Select and Place:**

Views	Answer Area	Scenario	View
JavaScript		Show Type	
column component		Show Product	
form control		Show Other Product	
business rule			

**Correct Answer:**

Views	Answer Area	Scenario	View
JavaScript		Show Type	
		Show Product	form control
		Show Other Product	column component
			business rule
