Exam Code: PL-900
Exam Name: Microsoft Power Platform Fundamentals

Vdumps

Exam A

QUESTION 1
You have a Power Automate flow that saves attachments from emails into OneDrive for Business.
You need to determine why the flow is not working.
What are three possible ways to achieve the goal? Each correct answer presents a complete solution.
NOTE: Each correct selection is worth one point.

A. Navigate to the Power Automate admin center and view the projects.
B. Navigate to the Action Items section of the Power Automate portal.
C. Enable Repair Tips for the flow.
D. Navigate to the flow and view the run history.
E. Navigate to the Power Automate web portal and click view notifications.

Correct Answer: B, C, D
Section:
Explanation:
Reference:
https://docs.microsoft.com/en-us/power-automate/fix-flow-failures

QUESTION 2
You are building a Power Automate flow to manage sales.
The sales team saves quotes as PDF files to a Microsoft OneDrive folder. You create a Microsoft SharePoint list to help the sales team manage follow ups to quotes.
You need to copy the customer name, phone number, and the amount of the potential sale from the sales quote and insert the data into the SharePoint list.
Which AI Builder model should you use?

A. key phrase extraction
B. sentiment analysis
C. text recognition
D. language detection

Correct Answer: C
Section:
Explanation:
Reference:
https://docs.microsoft.com/en-us/ai-builder/prebuilt-text-recognition

QUESTION 3
A company wants users to start using Power Automate to improve personal productivity.
You need to create a flow.
Which two elements must you include? Each correct answer presents part of the solution.
NOTE: Each correct selection is worth one point.

A. expression
B. condition

C. action

D. trigger

Correct Answer: C, D
Section:
Explanation:
Reference:
https://docs.microsoft.com/en-us/power-automate/get-started-logic-flow

QUESTION 4
HOTSPOT
You are creating Power BI visualizations.
You need to display the visuals where a user can perform each function.
Which solution should you use? To answer, select the appropriate option in the answer area.
NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Requirement	Solution
Make decisions by analyzing high-level KPIs.	Power BI service / Power BI Desktop / Power BI dashboards
Drill down into the details of a visual.	Power BI reports / Power BI Desktop / Power BI dashboards

Answer Area:

Answer Area

| Requirement	Solution
Make decisions by analyzing high-level KPIs.	▼
	Power BI service
	Power BI Desktop
	Power BI dashboards
Drill down into the details of a visual.	▼
	Power BI reports
	Power BI Desktop
	Power BI dashboards

Section:
Explanation:

QUESTION 5
HOTSPOT
Instructions: For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Statements	Yes	No
Stages are added under each step of a business process flow design.	○	○
Power Automate desktop flows can be used to copy a file to a folder on your local machine.	○	○
Power Automate flows can be copied to a separate solution for export to another environment.	○	○

Answer Area:

Answer Area

Statements	Yes	No
Stages are added under each step of a business process flow design.	○	○
Power Automate desktop flows can be used to copy a file to a folder on your local machine.	○	○
Power Automate flows can be copied to a separate solution for export to another environment.	○	○

QUESTION 6
HOTSPOT
A company plans to implement Power Bl.
Instructions: For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct selection is worth one point.

Hot Area:
Answer Area

Statements	Yes	No
Power BI Report Builder is the only tool used to create reports to be published to the Power BI service.	○	○
Power BI service can include calculated columns.	○	○
Power BI Desktop can include calculated columns.	○	○

Answer Area:
Answer Area

Statements	Yes	No
Power BI Report Builder is the only tool used to create reports to be published to the Power BI service.	○	○
Power BI service can include calculated columns.	○	○
Power BI Desktop can include calculated columns.	○	○

Section:
Explanation:

QUESTION 7
HOTSPOT
A company creates unmanaged model-driven apps.
For each of the following statements, select Yes if the statement is true. Otherwise, select No.

Hot Area:

Answer Area

Statement	Yes	No
Administrators can modify forms.	○	○
An App Maker can create personal views and system views.	○	○
An App Maker does not need to publish form changes for new columns to appear.	○	○

Answer Area:

Answer Area

Statement	Yes	No
Administrators can modify forms.		○
An App Maker can create personal views and system views.	○	○
An App Maker does not need to publish form changes for new columns to appear.	○	○

Section:
Explanation:

QUESTION 8
HOTSPOT
For each of the following statements, select Yes if the statement is true. Otherwise, select No.
NOTE: Each correct selection is worth one point.

Hot Area:

Statement	Yes	No
You can embed a canvas app in a Microsoft Forms form to collect user feedback.	○	○
You can embed a canvas app within a Microsoft Excel worksheet to allow users to interact with data in a structured way.	○	○
You can embed a canvas app within a Power Platform model-driven app.	○	○

Answer Area:

Answer Area

Statement	Yes	No
You can embed a canvas app in a Microsoft Forms form to collect user feedback.	☑	○
You can embed a canvas app within a Microsoft Excel worksheet to allow users to interact with data in a structured way.	○	☑
You can embed a canvas app within a Power Platform model-driven app.	☑	○

Section:
Explanation:

QUESTION 9
HOTSPOT
A company uses a cloud app built by the IT department. The app has a publicly available API to manage employee availability.
You are creating an automated flow by using Power Automate that will send an email to an employee's manager when that employee is recorded as sick in the app.
You need to choose the appropriate type of connector for the flow.
Select the answer that correctly completes the sentence.

Hot Area:

Answer Area

Use a [standard ▼] connector to trigger the Power Automate cloud flow.

custom
premium
standard

Answer Area:

Answer Area

Use a [standard ▼] connector to trigger the Power Automate cloud flow.

custom
premium
standard

Section:
Explanation:

QUESTION 10
A company is building apps to support their business operations. The apps will use connectors to access data from several data sources and respond to a number of events generated by components.
Which two operations can you use for connectors? Each correct answer presents part of the solution.
NOTE: Each correct selection is worth one point.

A. Actions
B. Plug-ins
C. Gateways
D. Triggers

Correct Answer: A, C
Section:
Explanation:
Reference:
https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/connections-list

QUESTION 11
You are a sales manager for a large retail organization.
You are creating a Power Apps app that will display customer product purchase information from your old point-of-sale (POS) system and need to link those sales to the customer accounts and product sales in Dynamics 365 Commerce.
You need to use the appropriate component.
What should you use?

A. Microsoft Dataverse

B. business process flow

C. entity metadata

D. business rule

Correct Answer: A
Section:

QUESTION 12
A company uses Power Apps canvas apps.
When a user opens Power Apps Studio in a browser and selects Apps I can edit, they do not see an app that they need to modify.
You need to determine why the user cannot see the app.
What are three possible reasons? Each correct answer presents a complete solution.
NOTE: Each correct selection is worth one point.

A. The user selected an incorrect Power Apps environment.

B. The user has not been granted the System Customizer role.

C. The user has not been set as the app co-owner.

D. The app has not been shared with the user.

E. The environment does not have a Common Data Service database.

Correct Answer: A, C, D
Section:
Explanation:
Reference:
https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/edit-app

QUESTION 13
A company is using Power Automate to automate business processes.
You need to run a flow when a user presses a button in an app.
Which trigger type should you recommend?

A. Power Apps

B. for a selected row

C. manually trigger a flow

Correct Answer: A
Section:
Explanation:
Reference:
https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/using-logic-flows

QUESTION 14

You are planning to allow members of your team to test your chatbot. You must ensure this is done in a secure way.

A team member named User1 must test the chatbot.

You need to ensure that User1 can complete testing.

What should you do?

A. Sign in to the authoring environment as the chatbot author.
B. Sign in to Microsoft Azure DevOps as the chatbot author.
C. Sign in to Microsoft Azure DevOps as User1.
D. Sign in to the authoring environment as User1.

Correct Answer: A
Section:

QUESTION 15
HOTSPOT
A company plans to create Power Platform apps that use industry-standard and proprietary data sources.
For each of the following statements, select Yes if the statement is true. Otherwise, select No.
NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Statement	Yes	No
Custom connectors can be used if a standard connector for the service is available.	○	○
Custom connectors are supported in instant flows only.	○	○
Standard and custom connectors can be mixed within the same flow or app.	○	○

Answer Area:

Answer Area

Statement	Yes	No
Custom connectors can be used if a standard connector for the service is available.	○	○
Custom connectors are supported in instant flows only.	○	○
Standard and custom connectors can be mixed within the same flow or app.	○	○

Section:

Explanation:

QUESTION 21
You create a canvas app that allows contractors to submit time they work against a project.
Contractors must be able to use the canvas app to enter time. Contractors must not be able to perform any other actions in the app.
You need to configure permissions for the contractors.
Which type of permissions should you use?

A. application-level

B. task-level

C. record-level

D. field-level

Correct Answer: D
Section:
Explanation:
Field-level security feature to allow more granular control of security at the field level.
Incorrect Answers:
C: Record-level privileges that determine the level of access a user has to a specific record or record type.
Reference:
https://docs.microsoft.com/en-us/power-platform/admin/security-roles-privileges
https://docs.microsoft.com/en-us/power-platform/admin/wp-security-cds

QUESTION 22
You are creating a Power Automate flow.
The flow must read each item in a Microsoft SharePoint list that details sales opportunities and set the value for a field named Status to Overdue if the value of a field named Follow up is less than or equal to the current date.
You need to select the appropriate component to cycle through the entire list.
Which component should you use?

A. Condition

B. Connector

C. Action

D. Trigger

Correct Answer: A
Section:
Explanation:

Reference:
https://docs.microsoft.com/en-us/power-automate/use-expressions-in-conditions

QUESTION 23
You create a Power Virtual Agents chatbot.
You need to share the bot with other team members so that they can try out the bot before you share the bot with customers. What should you use?

A. demo website
B. live production website
C. test chat feature

Correct Answer: C
Section:
Explanation:
Reference:
https://docs.microsoft.com/en-us/power-virtual-agents/authoring-test-bot

QUESTION 24
A company is using Power BI.
The company wants to see which data connectors are available for building dashboards.
You need to evaluate the available connectors.
What should you use to see all the available connectors?

A. Power BI Workspace
B. Common Data Service
C. Power BI Dataflows
D. Power Platform admin center
E. Power BI Desktop

Correct Answer: E
Section:
Explanation:
Reference:
https://docs.microsoft.com/en-us/powerapps/maker/data-platform/data-platform-powerbi-connector

QUESTION 25
You create a Power Virtual Agents chatbot for a company. The chatbot will use common channels and services by which the company communicates with customers.
You need to determine which services the chatbot can be used with or added to.
Which two services can the chatbot be used with? Each correct answer presents a complete solution.
NOTE: Each correct selection is worth one point.

A. Facebook
B. Power BI
C. Microsoft Azure Event Grid
D. Microsoft Azure Service Bus
E. Microsoft Azure Bot Framework

Correct Answer: A, E

QUESTION 26
You create a Power Virtual Agents chatbot for a company.
The management wants to learn about the effectiveness of the chatbot.
You need to identity the percentage of customers who stop responding to prompts from the chatbot.
Which report should you view?

A. Customer satisfaction

B. Engagement over time

C. Escalation rate drivers

D. Session outcomes over time

Correct Answer: B

QUESTION 27
DRAG DROP
You plan to use Power Automate to monitor what people are saying about your company's products. You store the feedback for research and development purposes.
You need to recommend Power Automate components to use for the solution.
To answer, drag the appropriate components to the correct requirements. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

Select and Place:

Components

- action
- expression
- service
- trigger
- flow type

Answer Area

Requirement	Component
Retrieve the top five posts from your company's Facebook page.	Component
Enter the resulting posts into the product database.	Component
Combine author and link fields into a single field.	Component
Run flow every hour.	Component

Correct Answer:

Components

- action
- expression
- service
- trigger
- flow type

Answer Area

Requirement	Component
Retrieve the top five posts from your company's Facebook page.	action
Enter the resulting posts into the product database.	action
Combine author and link fields into a single field.	expression
Run flow every hour.	trigger

Section:

Explanation:

Box 1: Action

An action is something that occurs as a result of the workflow. For example, send an email or copy a file. In this case, the action is to retrieve the top five posts from a Facebook page.

Box 2: Action

An action is something that occurs as a result of the workflow. For example, send an email or copy a file. In this case, the action is to insert records into a database. Box 3: Expression

Sometimes users just need to do basic operations like getting the current time, adding numbers together, or replacing a part of a string of text. That's possible inline in any flow action. Microsoft Flow leverages the same Workflow Definition Language used by Azure Logic apps. For new users who are unfamiliar with the expression language, there is an inline help experience that shows how to use each expression as they build out their flow.

Box 4: Trigger

A trigger is something that triggers or starts the workflow. It could be a new file uploaded to a document library, a new item created in the list or an email sent to your Inbox – something that will start (kick-off the workflow).

There are two types of triggers:

Automatic trigger is pre-programmed into the workflow based on a certain rule (i.e. new document or item created, email sent, etc.) Manual Trigger is a trigger initiated by a user. Unlike with automatic trigger above, the workflow will only start when initiated manually by the end user (for example, from the Document Library for a selected file). Manual trigger is only supported for certain types of workflows (i.e. Get feedback from your manager for the selected file)

QUESTION 28

DRAG DROP

A company plans to use Power Automate to automate tasks.

Match each flow type to its description. To answer, drag the appropriate flow type from the column on the left to its description on the right. Each option may be used once, more than once, or not at all.

NOTE: Each correct match is worth one point.

Select and Place:

Correct Answer:

Flow types

Answer Area

Description

a flow that runs after it is triggered by an event

a flow that guides a user through a set of tasks

a flow that runs after a specified number of days

a flow that allows you to start tasks on-demand

Flow type

automated

business process

scheduled

instant

Section:
Explanation:
Box 1: automated
Automated flows start with an event or trigger, such as an email being received. These also support a multitude of actions in the 200+ Flow connectors.
Box 2: business process
The business process flow that creates stages or screens that enforce a certain sequence of steps. It collects data from users for each step in the stage and can kick off automated workflows.
Box 3: scheduled
Scheduled flows run regular reports that are sent out to a team and summarize everything that's happened in the past week. This includes everything from simple daily scheduling to more complex scheduling like "every 3rd Monday."
Box 4: instant
An instant flow is triggered when you click a button inside of the Flow mobile app, SharePoint, Dynamics, PowerApps, or Excel that passes context directly into your flow.
Note: There are four different Flow types that you can choose from when starting out. You can create a scheduled flow, automated flow, instant flow, or a business process flow.

https://www.avepoint.com/blog/office-365/office-365-automation/

QUESTION 29
DRAG DROP
A project deadline is approaching. The project manager reports that there are still a number of critical tasks that are not complete.
You need to implement Power Automate to help streamline processes.
Which types of flows should you use? To answer, drag the appropriate flow types to the correct requirement. Each flow type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

Select and Place:

Flow types

automated

instant

scheduled

business process

Answer Area

Requirement	Flow type
Ensure that all of the steps for completing tasks are consistently followed by all team members.	
Ensure that users can manually send an email to the project lead whenever a task is completed.	
Automatically send a list of completed tasks at the end of each week.	

Correct Answer:

Flow types

instant

Answer Area

Requirement	Flow type
Ensure that all of the steps for completing tasks are consistently followed by all team members.	business process
Ensure that users can manually send an email to the project lead whenever a task is completed.	automated
Automatically send a list of completed tasks at the end of each week.	scheduled

Section:
Explanation:
Reference:
https://docs.microsoft.com/en-us/power-automate/business-process-flows-overview
https://docs.microsoft.com/en-us/power-automate/get-started-logic-flow

QUESTION 30
DRAG DROP
A company provides on-site architectural consulting services to residential and business customers. The company wants to implement a simple alert system where a consultant can press a button on their mobile device to send the user's location to the company as a text notification.
You need to build a button flow that sends the notification.
In which order should you perform the actions? To answer, move all actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

Actions

| Add a new step to the flow. |
| Add a trigger. |
| Select a connector and action to send text notifications. |
| Set the actions properties. |
| Save the flow. |

Answer Area

| |
| |
| |
| |
| |

Correct Answer:

Actions

| |
| |
| |
| |
| |

Answer Area

| Add a new step to the flow. |
| Select a connector and action to send text notifications. |
| Set the actions properties. |
| Add a trigger. |
| Save the flow. |

QUESTION 31
DRAG DROP
A travel company plans to use the Power Platform to create tools that help travel agents book customer travel.
You need to recommend solutions for the company.
What should you recommend? To answer, drag the appropriate tools to the correct requirements. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. NOTE: Each correct selection is worth one point.

Select and Place:

Tools	Answer Area	
Business rule	**Requirement**	**Tool**
Business process flow	If a customer is travelling with a person under the age of 18, a field must display to collect date of birth for the under 18 traveler only.	
Power Automate	Ensure that all travel agents use the same process with all customers.	
Power BI	Send a confirmation email to customers after reservations are complete.	

Correct Answer:

Tools	Answer Area	
	Requirement	**Tool**
	If a customer is travelling with a person under the age of 18, a field must display to collect date of birth for the under 18 traveler only.	Business rule
Power BI	Ensure that all travel agents use the same process with all customers.	Business process flow
	Send a confirmation email to customers after reservations are complete.	Power Automate

Section:
Explanation:
Reference:
https://docs.microsoft.com/en-us/power-automate/getting-started
https://docs.microsoft.com/en-us/powerapps/maker/common-data-service/data-platform-create-business-rule#:~:text=Business%20rules%20provide%20a%20simple,changing%20and%20commonly%20used%20rules.&text=To%20define%20a%20business%20rule,a%20model%2Ddriven%20app%20form.

QUESTION 32
A company uses Power Platform.
You must ensure that users cannot share customer data with other users. You must also ensure that uses cannot connect to data sources unless you grant the user explicit permissions to access a data source.
You need to recommend solutions to meet the company's security requirements.
Which two types of policies should you recommend? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

A. Office cloud policies
B. Group Policy Objects
C. environment-level policies
D. tenant-level policies
E. preset security policies

Correct Answer: C, D
Section:
Explanation:
Reference:
https://docs.microsoft.com/en-us/power-platform/admin/wp-data-loss-prevention
https://docs.microsoft.com/en-us/power-platform/admin/create-dlp-policy

QUESTION 33
You are creating visuals in Power BI.
You create area charts, pie charts, and donut charts that use your company's data.
You need to display the charts to others at the company.
Which two objects can you add the charts to? Each correct answer presents a complete solution.
NOTE: Each correct selection is worth one point.

A. Power BI service
B. Power BI reports
C. Power BI desktop
D. Power BI dashboards

Correct Answer: B, D
Section:
Explanation:
Reference:
https://docs.microsoft.com/en-us/power-bi/visuals/power-bi-visualization-types-for-reports-and-q-and-a

QUESTION 34
A company is building an interactive chatbot to answer questions about product and product warranties.
You need to create conversation paths for questions about product warranties.
Which tool should you use?

A. Authoring canvas
B. Azure Bot Framework
C. Power Platform admin center
D. Power Virtual Agents portal
E. Conversation node

Correct Answer: D
Section:
Explanation:
Reference:

https://docs.microsoft.com/en-us/power-virtual-agents/authoring-create-edit-topics

QUESTION 35
You are building a Power Virtual Agents chatbot for a company.
You are working with an existing topic and would like to call an action.
Which technology is available to perform the action?

A. Power Virtual Agent Entity

B. Power BI

C. Power Apps

D. Power Automate

Correct Answer: D
Section:
Explanation:
Reference:
https://docs.microsoft.com/en-us/power-virtual-agents/advanced-flow

QUESTION 36
A company uses a model-driven app for their mobile sales activities.
The company wants to modify the view that is used for sales orders. You must apply a new default filter to the view. You must also modify the default sorting for sales orders. You need to make the changes to the view.
In which three locations can you make the changes? Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

A. Power Apps site

B. Solution Explorer

C. Microsoft Azure DevOps

D. App Designer

Correct Answer: A, C, D
Section:
Explanation:
You can edit or remove a filter condition through the Power Apps site.
You can create and edit Analytics views in Azure DevOps.
An alternative to editing views in the tables is to edit views from the app designer.
Reference:
https://docs.microsoft.com/en-us/powerapps/maker/model-driven-apps/create-edit-view-filters
https://docs.microsoft.com/en- us/azure/devops/report/powerbi/analytics-views-create
https://docs.microsoft.com/en-us/powerapps/maker/model-drivenapps/create-edit-views-app-designer

QUESTION 37
A company is creating a chatbot to replace a frequently asked questions (FAQ) site.
You must perform step-by-step testing for all scenarios that are part of a complex user interaction that includes multiple topics. Testers must be able to see the workflow while interacting with the chatbot. You need to test the chatbot.
What should you do?

A. View analytics for a chatbot conversation.

B. Publish the chatbot and test it in any channel.

C. Publish the chatbot and test it in the demo website.

D. Use the chatbot designer to test the chatbot.

Correct Answer: C
Section:
Explanation:
When publishing the bot to the web, you can publish to a prebuilt demo website (which you can use to share the bot with your teammates and stakeholders) and to your own live website. Note: You should use the demo website only to try out the bot and share it with your teammates or other stakeholders who want to try out the bot. It's not intended for production uses, for example, you shouldn't use it directly with customers.
Reference:
https://docs.microsoft.com/en-us/power-virtual-agents/publication-connect-bot-to-web-channels

QUESTION 38
A company is creating a canvas app to track and analyze customer visits to their retail stores. Data about customer visits is stored on-premises at each retail store location. The app must display data about customer visits when users launch the app.
You need to ensure that the data is available for consumption by the app.
Which tool should you use?

A. Connector
B. Microsoft Dataverse
C. Data source
D. Power Automate
E. Data gateway

Correct Answer: A
Section:

QUESTION 39
A company using Power Platform is implementing Power BI. The company plans to connect to several data sources and create reports and dashboards. You need to identify the data sources they can connect to.
Which two data sources should you use? Each correct answer presents a complete solution.
NOTE: Each correct selection is worth one point.

A. Microsoft Excel
B. Microsoft Dataverse
C. Microsoft OneNote
D. Microsoft Word

Correct Answer: A, B
Section:

QUESTION 40
HOTSPOT
A company is evaluating Power Platform and has questions about the role that Microsoft Dataverse plays in using Power Apps and Power Automate.
For each of the following statements, select Yes if the statement is true. Otherwise, select No.
NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Statement	Yes	No
Model-driven apps require a Microsoft Dataverse database.	○	○
A flow instance can only access one Microsoft Dataverse database.	○	○
Canvas apps require a Microsoft Dataverse database.	○	○

Answer Area:

Answer Area

Statement	Yes	No
Model-driven apps require a Microsoft Dataverse database.	○	○
A flow instance can only access one Microsoft Dataverse database.	○	○
Canvas apps require a Microsoft Dataverse database.	○	○

Section:
Explanation:

QUESTION 41
HOTSPOT
A company plans to create a Common Data Service environment.
For each of the following statements, select Yes if the statement is true. Otherwise, select No.
NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Statement	Yes	No
You can create a Common Data Service environment in the Power Platform Admin center.	○	○
You must enable data encryption after you create a Common Data Service environment.	○	○
You can control security roles and privileges in a Common Data Service Environment from the Power Apps Admin center.	○	○

Answer Area:

Answer Area

Statement	Yes	No
You can create a Common Data Service environment in the Power Platform Admin center.	◉	○
You must enable data encryption after you create a Common Data Service environment.	○	◉
You can control security roles and privileges in a Common Data Service Environment from the Power Apps Admin center.	◉	○

QUESTION 42
HOTSPOT
A company needs to create several workflows and applications to help streamline their sales operations.
You need to determine which applications are appropriate for given scenarios.
Which applications should you use? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Scenario	Application
Create no-code workflows that use different systems.	▼
	Azure Logic Apps
	Power Apps
	Power Automate
	Dynamics 365 workflows
Build a no-code mobile application.	▼
	Azure Logic Apps
	Power Apps
	Power Automate
	Dynamics 365 workflows
Administer your workflow in Microsoft Azure.	▼
	Azure Logic Apps
	Power Apps
	Power Automate
	Dynamics 365 workflows
Build a mobile application by using Common Data Service.	▼
	Azure Logic Apps
	Power Apps
	Power Automate
	Dynamics 365 workflows

Answer Area:

Answer Area

Scenario	Application
Create no-code workflows that use different systems.	**▼** Azure Logic Apps Power Apps *Power Automate* Dynamics 365 workflows
Build a no-code mobile application.	**▼** Azure Logic Apps *Power Apps* Power Automate Dynamics 365 workflows
Administer your workflow in Microsoft Azure.	**▼** *Azure Logic Apps* Power Apps Power Automate Dynamics 365 workflows
Build a mobile application by using Common Data Service.	**▼** Azure Logic Apps *Power Apps* Power Automate Dynamics 365 workflows

QUESTION 43
HOTSPOT
You have a Power BI report.
For each of the following statements, select Yes if the statement is true. Otherwise, select No.
NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Statement	Yes	No
You can export data from a visualization in a Power BI report.	○	○
You can show the data behind a visual report on your screen without exporting the data.	○	○
You can export data to view supporting data for a KPI.	○	○

Answer Area:

Answer Area

Statement	Yes	No
You can export data from a visualization in a Power BI report.	●	○
You can show the data behind a visual report on your screen without exporting the data.	○	●
You can export data to view supporting data for a KPI.	●	○

Section:

Explanation:

Box 1: Yes

If you'd like to see the data that Power BI uses to create a visualization, you can display that data in Power BI. You can also export that data to Excel as an .xlsx or .csv file. The option to export the data requires a Pro or Premium license and edit permissions to the dataset and report.

Note: Export data from a Power BI dashboard

1. Select the ellipsis in the upper-right corner of the visualization.

2. Choose the Export data icon.

3. Power BI exports the data to a .csv file. If you've filtered the visualization, then the app will filter the downloaded data.

4. Your browser will prompt you to save the file. Once saved, open the .csv file in Excel.

Box 2: No

Underlying data: Select this option if you want to see the data in the visual and additional data from the model (see chart below for details). If your visualization has an aggregate, selecting Underlying data removes the aggregate. When you select Export, Power BI exports the data to an .xlsx file and your browser prompts you to save the file. Once saved, open the file in Excel.

Box 3: Yes

A KPI dataset needs to contain goal values for a KPI. If your dataset doesn't contain goal values, you can create them by adding an Excel sheet with goals to your data model or PBIX file.

Note: A Key Performance Indicator (KPI) is a visual cue that communicates the amount of progress made toward a measurable goal.

QUESTION 46

HOTSPOT

A user is trying to understand the differences between the various ways apps can be built by using Power Apps.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Statement	Yes	No
You can embed canvas apps in model-driven apps.	○	○
A Power Apps portal can use only one data source.	○	○
You must use Power BI to create reports in model-driven apps.	○	○

Answer Area:

Answer Area

Statement	Yes	No
You can embed canvas apps in model-driven apps.	○	○
A Power Apps portal can use only one data source.	○	○
You must use Power BI to create reports in model-driven apps.	○	○

Section:

Explanation:

Box 1: Yes
You can create a canvas app and then embed that within a model driven app.
Box 2: No
With the capability to build a portal in PowerApps, you can create a website for external and internal users enabling them to interact with data stored in Common Data Service.
Note: Common Data Service lets you securely store and manage data that's used by business applications. Data within Common Data Service is stored within a set of entities. An entity is a set of records used to store data, similar to how a table stores data within a database. Common Data Service includes a base set of standard entities that cover typical scenarios, but you can also create custom entities specific to your organization and populate them with data using Power Query. App makers can then use PowerApps to build rich applications using this data.
Box 3: Yes
To get started building a report you'll need the latest version of Power BI Desktop and a PowerApps environment with the latest version of the Common Data Service.
Reference:
https://carldesouza.com/how-to-embed-a-canvas-app-in-a-model-driven-app-in-powerapps/
https://docs.microsoft.com/en-us/powerapps/maker/portals/create-portal
https://docs.microsoft.com/en-us/powerapps/maker/common-data-service/data-platform-intro

QUESTION 47
HOTSPOT
A user is creating their first canvas app in Power Apps.
The user does not know what types of controls they can include.
You need to recommend solutions for the user.
Which types of controls would you recommend using in Power Apps? To answer, select the appropriate control in the dialog box in the answer area.
NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Scenario	Control
View the date, time, and location of upcoming internal meetings.	Meeting-screen template / Gallery / List box
Create a meeting request from within the app.	Meeting-screen template / Gallery / List box
Drill down into customer contact records in Dynamics 365 Sales to view a photo of a customer you are meeting.	Image / People-screen template / Add picture

Answer Area:

Answer Area

Scenario	Control
View the date, time, and location of upcoming internal meetings.	**Meeting-screen template** / *Gallery* / **List box**
Create a meeting request from within the app.	*Meeting-screen template* / **Gallery** / **List box**
Drill down into customer contact records in Dynamics 365 Sales to view a photo of a customer you are meeting.	*Image* / **People-screen template** / **Add picture**

Section:

Explanation:

Box 1: Gallery

A Gallery control can show multiple records from a data source, and each record can contain multiple types of data. For example, a Gallery control can show multiple contacts with each item showing contact information that includes a name, an address, and a phone number for each contact.

Box 2: Meeting-screen template

In a canvas app, add a meeting screen that lets users create and send meeting requests from their Office 365 Outlook accounts. Users can search for attendees in their org and add external email addresses. If your tenant has meeting rooms built into Outlook, users can select a location as well.

Box 3: Image

If you add one or more Image controls to your app, you can show individual images that aren't part of a data set, or you can incorporate images from records in data sources.

Incorrect Answers:

List box: A list in which the user can select one or multiple items.

With the Add picture control in PowerApps users can take photos or upload image files from their device and update the data source with this content. On a mobile device the user is presented with the device's choice dialog to choose between taking a photo or selecting one already available.

Reference:

https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/screen-templates/meeting-screen-overview

QUESTION 48

HOTSPOT

You are designing a Power Apps solution that allows users to upload a status report directly to the company Microsoft SharePoint project management site from their mobile device.

For each of the following statements, select Yes it the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Statement	Yes	No
You should build a model-driven app in Power Apps.	○	○
You should build a canvas app in Power Apps.	○	○
Users must download and run the Power Apps mobile application to use the solution.	○	○

Answer Area:

Answer Area

Statement	Yes	No
You should build a model-driven app in Power Apps.	○	○
You should build a canvas app in Power Apps.	○	○
Users must download and run the Power Apps mobile application to use the solution.	○	○

Section:
Explanation:
Box 1: No
Box 2: Yes
Box 3: Yes
When you create an app, or someone shares an app with you, you can run that app on Windows, iOS, Android, or in a web browser.

QUESTION 67
DRAG DROP
You plan to create a model-driven app for a company that sells plants and garden supplies. The app must meet the following requirements:
• Automatically send email to a customer when a record is modified.
• Ensure that all sales people follow the same steps when processing sales.
You need to create Power Automate flows for the app.

Select and Place:

Flow types

Button	
Automatic	
Scheduled	
Business Process	

Answer Area

Requirement	Flow type
Send email to customers.	
Ensure that salespeople follow the same steps.	

Correct Answer:

Flow types

Button	
Scheduled	

Answer Area

Requirement	Flow type
Send email to customers.	Automatic
Ensure that salespeople follow the same steps.	Business Process

QUESTION 76
DRAG DROP
You build a flow using a template. You want to add support for additional business scenarios.
You need to ensure that the new workflow does not break existing functionality.
Which flow editing utilities should you use? To answer, drag the appropriate tools to the correct requirements. Each tool may be used once, more than once, or not at all You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

Select and Place:

Tools

Test

Flow Checker

Answer Area

Requirement	Tool
Check the new flow for any errors or warnings.	Tool
Run the flow using previously processed data.	Tool
Monitor the flow as it is running.	Tool

Correct Answer:

Tools

Test

Flow Checker

Answer Area

Requirement	Tool
Check the new flow for any errors or warnings.	Flow Checker
Run the flow using previously processed data.	Test
Monitor the flow as it is running.	Test

Section:
Explanation:
Box 1: Flow Checker
The Flow checker feature will promote higher quality flows by ensuring you follow best practices. By running the checker, you will be able to get answers to questions like: which areas of my flow implementation pose a performance or reliability risk?
For each issue identified, the Flow checker points to specific occurrences within the flow where improvements may be required. And more importantly, you learn how to implement these improvements by following detailed guidance.
Box 2: Test
Box 3: Test

QUESTION 77
DRAG DROP
You are a district manager for a large retail company. You want to provide sales managers with deeper sales insights to ensure that they can make more informed decisions for their stores.
Store managers must be able to view data in near real-time.
You need to create and share a Power BI dashboard that can be used by the store managers.
Which tools can you use? To answer, drag the appropriate reporting types to the correct requirements. Each reporting type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

Select and Place:

Reporting types

Power BI Service only

Power BI Desktop only

Power BI Desktop or Power BI Service

Answer Area

Requirement	Reporting type
Create Power BI dashboards that contain a single store's sales information.	
Share that dashboard with your retail managers.	

Correct Answer:

Reporting types

Power BI Service only

Answer Area

Requirement	Reporting type
Create Power BI dashboards that contain a single store's sales information.	Power BI Desktop only
Share that dashboard with your retail managers.	Power BI Desktop or Power BI Service

QUESTION 85
DRAG DROP
A company uses Power Bl.
The company wants to use Al Insights in Power Bl to make data-driven decisions.
You need to select the appropriate insight type for each requirement.
Which insight types should you select? To answer, drag the appropriate insight types to the correct requirements. Each insight type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

Select and Place:

Insight types

Anomalies

Key Performance Indicator (KPI) analysis

Trends

Answer Area

Requirement	Insight type
Evaluate the current value against a defined target.	
Identify data that is outside the boundary of normally expected values.	
Find patterns in time-series data.	

Correct Answer:

Insight types

Answer Area

Requirement	Insight type
Evaluate the current value against a defined target.	Key Performance Indicator (KPI) analysis
Identify data that is outside the boundary of normally expected values.	Anomalies
Find patterns in time-series data.	Trends

Section:
Explanation:

QUESTION 86
DRAG DROP
A company creates a new instance of Microsoft Dataverse to store customer information.
Customer service agents require a simple, three-screen canvas app to interact with the Dataverse data.
You need to create the app.
Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

Actions

Choose whether to connect directly or through an on-premises data gateway.
Select Dataverse from the Start from section.
Create a Dataverse connection.
Choose a table.
Switch to the environment with Dataverse.
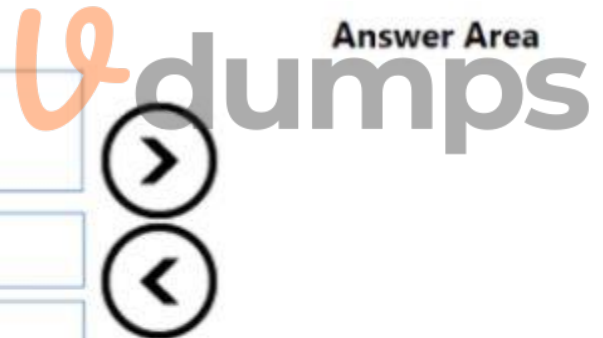

Answer Area

Correct Answer:

Actions

|	
Choose whether to connect directly or through an on-premises data gateway.	

Answer Area

Select Dataverse from the Start from section.

Create a Dataverse connection.

Choose a table.

Switch to the environment with Dataverse.

Section:
Explanation:
Select Dataverse from the Start from section.
Create a Dataverse connection.
Choose a table.
Switch to the environment with Dataverse.

QUESTION 87
DRAG DROP
A company uses Dynamics 365 Sales. You have the following requirements:
* View analytics on accounts.
* The model-driven app must automatically send an approval form to a manager when the purchase price is greater than $10,000.
* Create a chatbot for the webpage to interact with customer questions.
You must use Microsoft Power Platform to extend the capabilities of Dynamics 365 Sales. You need to select an application for each requirement.
Which application should you use? To answer, drag the appropriate application to the correct requirement. Each application may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

Select and Place:

Applications

Power BI

Power Automate

Power Virtual Agents

Power Portals

Answer Area

Requirement	Application
View analytics on accounts.	
Automatically send approval.	
Create chatbot for webpages.	

Correct Answer:

Applications

Answer Area

Requirement	Application
View analytics on accounts.	Power BI
Automatically send approval.	Power Automate
Create chatbot for webpages.	Power Virtual Agents

Power Portals

Display multiple rows from a table.	List

QUESTION 89
DRAG DROP
A medical office has a model-driven app that uses Common Data Service.
You plan to create a screen that allows users to capture information about doctors. The screen must provide users the ability to enter or select the following information:
a place to enter doctor profile data that is not part of the account table or the contact table
a place to enter the doctor's specialty in the profile form
a column for insurance with the ability to pick one of 10 different insurance companies
You need to store the captured data in Common Data Service.
What should you use to store the data? To answer, drag the appropriate components to the correct requirements. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

Select and Place:

Options	Answer Area	
Entity	**Requirement**	**Option**
Field	Store additional doctor profile data.	Option
Option set	Store information about the doctor's specialty.	Option
Record	Select an insurance company.	Option

Correct Answer:

Options

Entity	

Answer Area

Requirement	Option
Store additional doctor profile data.	Field
Store information about the doctor's specialty.	Record
Select an insurance company.	Option set

Explanation:

QUESTION 90
DRAG DROP
A company is implementing Power BI to track sales.
Each of the company's regions has specific quarterly and yearly sales goals.
You need to build a Power BI dashboard for various reporting requirements.
Which chart types should you use? To answer, drag the appropriate chart types to the correct requirements. Each chart type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

Select and Place:

Answer Area

Chart types	Requirement	Chart type
Donut	Show the quarterly sales total to date in relation to the sales goal.	
KPIs	View the sales trend by month of the sales year to date for all regions.	
Line chart	View the year-to-date sales as a percentage by region.	
Matrix		

Correct Answer:

Answer Area

Chart types	Requirement	Chart type
	Show the quarterly sales total to date in relation to the sales goal.	KPIs
	View the sales trend by month of the sales year to date for all regions.	Line chart
	View the year-to-date sales as a percentage by region.	Donut
Matrix		

Section:

Explanation:

Box 1: KPIs

A Key Performance Indicator (KPI) is a visual cue that communicates the amount of progress made toward a measurable goal. Box 2: Line chart

Line charts emphasize the overall shape of an entire series of values, usually over time.

Box 3: Donut

Doughnut charts are similar to pie charts. They show the relationship of parts to a whole. The only difference is that the center is blank and allows space for a label or icon.

Reference: https://docs.microsoft.com/en-us/power-bi/visuals/power-bi-visualization-types-for-reports-and-q-and-a

QUESTION 91
DRAG DROP
You are creating a Power Automate flow.
You need to retrieve data from several sources including Microsoft Excel, Azure Data Lake and GitHub. What should you use? To answer, drag the appropriate components to the correct data sources. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

Select and Place:

Answer Area

Components	Data source	Component
Connector	Microsoft Excel	
Expression	Azure Data Lake	
Formula	GitHub	

Correct Answer:

Answer Area

Components	Data source	Component
	Microsoft Excel	Formula
	Azure Data Lake	Connector
	GitHub	Expression

Section:
Explanation:
Box 1: Formula
Reading an Excel document retrieves the data from the document, allowing it to be processed and modified in flows. Read and extract data from an Excel document with the Read from Excel worksheet action.
Box 2: Connector
Azure Data Lake Store connector allows you to read and add data to an Azure Data Lake account. The Azure Data Lake connector is available for Power Automate.

Box 3: Expression
Reference: https://docs.microsoft.com/en-us/learn/modules/pad-excel-automation/3-reading-excel-document https://docs.microsoft.com/en-us/connectors/azuredatalake/

QUESTION 92
DRAG DROP
You need to build a Power Virtual Agents chatbot for a company.
Which components should you use? To answer, drag the appropriate components to the correct requirements. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

Select and Place:

| Components	Requirement	Component
Entity	Identify keywords or questions and relate them to issues.	
Variable	Store a response that a user enters for later use.	
Trigger Phrase	Identify a specific type of information from a user response.	

Correct Answer:

Components	Requirement	Component
	Identify keywords or questions and relate them to issues.	Trigger Phrase
	Store a response that a user enters for later use.	Variable
	Identify a specific type of information from a user response.	Entity

Section:
Explanation:
Box 1: Trigger Phrase
A trigger phrase is a phrase that a customer enters in the chat window to start a conversation with the bot. Once the conversation is started, the conversation follows the path you define. You can specify more than one trigger phrase for a topic.
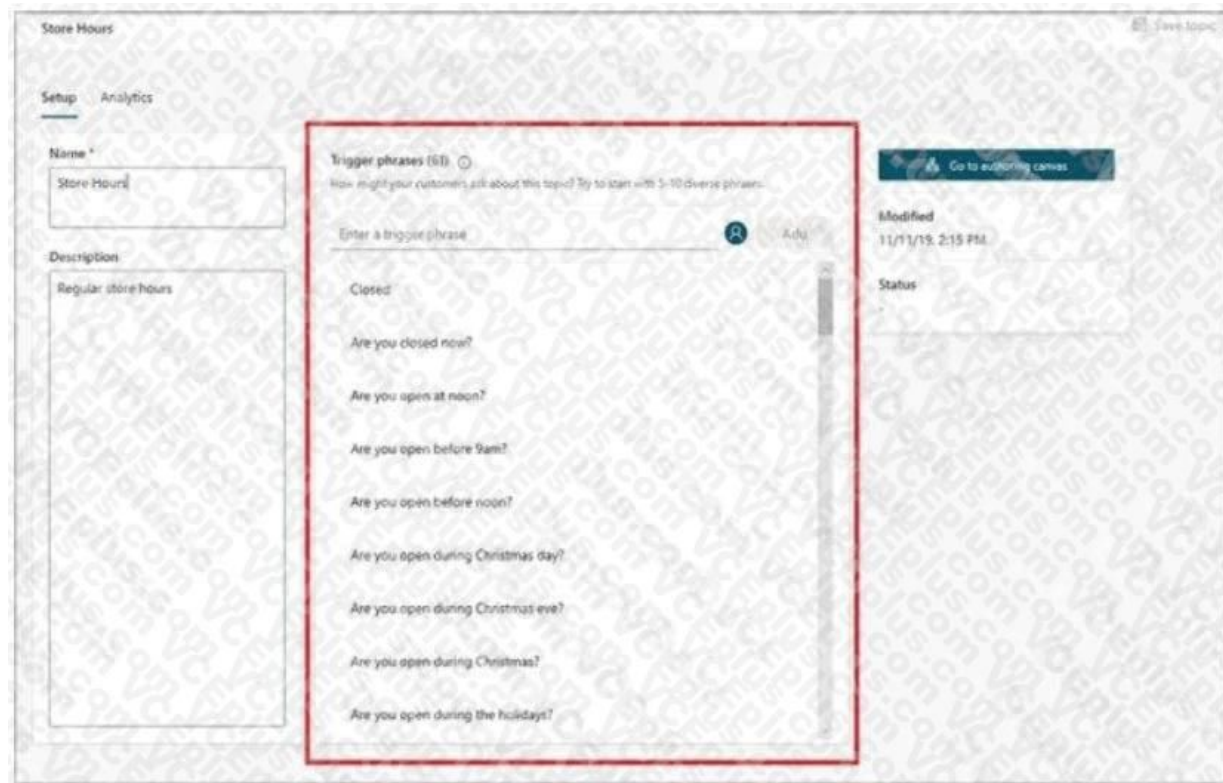

Box 2: Variable

Variables let you save responses from your customers in a conversation with your bot so that you can reuse them later in the conversation. Box 3: Entity

An entity can be viewed as an information unit that represents a certain type of a real-world subject, like a phone number, zip code, city, or even a person's name.

QUESTION 93

DRAG DROP

A team of five people plans to create Power Platform solutions for a company. Team members plan to initially use Power Platform trial instances to create solutions.

Team members have questions about how many Power Platform instances and Common Data Service databases they need.

You need to respond to the team.

How should you respond? To answer, drag the appropriate responses to the correct questions. Each response may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. NOTE: Each correct selection is worth one point.

Select and Place:

Correct Answer:

Responses

| One per user |
| One per tenant |
| One per environment |
| One per Power Platform app |

Answer Area

Question	Response
How many trial instances must the team create?	One per environment
How many Common Data Service databases must the team create?	One per environment

QUESTION 95
DRAG DROP
You are implementing a solution for an animal hospital.
The animal hospital must contact owners regarding their pets.
You need to model the owner and pet object information by using Microsoft Dataverse. The solution must minimize the amount of customization required:
• owner first name
• owner last name
• owner email address
• owner date of birth
• pet name
• pet breed
• pet owner
Which component should you use? To answer, drag the appropriate components to the correct dat a. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. NOTE: Each correct selection is worth one point.

Select and Place:

Components		Answer Area	
Standard Dataverse table		**Data**	**Component**
Custom Dataverse table		The owner object	Component
Column		The pet object	Component
Relationship		The owner's email address	Component
		Reference a pet record as belonging to an owner record	Component

Correct Answer:

Components		Answer Area	
Standard Dataverse table		**Data**	**Component**
Custom Dataverse table		The owner object	Column
Column		The pet object	Column
Relationship		The owner's email address	Column
		Reference a pet record as belonging to an owner record	Standard Dataverse table

QUESTION 96
DRAG DROP
You are creating a Power Apps solution for a company that manufactures bicycles. The company has The following requirements:
• A vendor uploads a Microsoft Excel workbook to the company each week. The workbook contains lists of parts and their current prices. You must automatically Import the data into Microsoft Dataverse as soon as the workbook is uploaded. You must send specific users an alert when new files are uploaded.
• Synchronize customer data with a proprietary accounting database when a user selects a button on the Account form. You need to recommend the trigger types to use to meet the requirements.
Which trigger types should you use? To answer, drag the appropriate trigger types to the correct requirements. Each trigger type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

Select and Place:

Trigger types		Answer Area		
Push trigger			**Requirement**	**Trigger type**
Polling trigger			Send a notification when an Excel workbook is uploaded.	Trigger type
Triggers for scheduled flows			Synchronize customer data with a proprietary accounting database.	Trigger type
Triggers for business process flow				

Correct Answer:

Trigger types		Answer Area		
			Requirement	**Trigger type**
Polling trigger			Send a notification when an Excel workbook is uploaded.	Push trigger
Triggers for scheduled flows			Synchronize customer data with a proprietary accounting database.	Triggers for business process flow

QUESTION 97
DRAG DROP
A company is implementing a customer service solution by using Dynamics 365 Customer Service.
The company is extending the solution to meet additional business requirements.
The solution has the following requirements:
• Customers can log on to a secure website and view the progress of customer service tickets.
• Refund requests over a certain value can be automatically sent for managerial approval in Microsoft Teams.
• Create a custom page showing a gallery of pictures within the Dynamics 365 Customer Service app.
You need to use Microsoft Power Platform technologies to implement the solution.
Which technology should you use? To answer, drag the appropriate technologies to the correct requirements. Each technology may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

Select and Place:

Technologies		Answer Area	
Power Apps portals		**Requirement**	**Technology**
Power Automate		Customers can log on to a secure website and view the progress of customer service tickets.	
Canvas apps		Refund requests over a certain value can be automatically sent for managerial approval in Microsoft Teams.	
		Create a custom page showing a gallery of pictures within the Dynamics 365 Customer Service app.	

Correct Answer:

Technologies	Answer Area	
☐	**Requirement**	**Technology**
☐	Customers can log on to a secure website and view the progress of customer service tickets.	Power Apps portals
☐	Refund requests over a certain value can be automatically sent for managerial approval in Microsoft Teams.	Power Automate
	Create a custom page showing a gallery of pictures within the Dynamics 365 Customer Service app.	Canvas apps

QUESTION 98
DRAG DROP
You are creating a Power Automate flow.
You need to retrieve data from several sources including Microsoft Excel Azure Data Lake, and GitHub. What should you use? To answer, drag the appropriate components to the correct data sources. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. NOTE: Each correct selection is worth one point.

Select and Place:

Components	Answer Area	
Connector	**Data source**	**Component**
Expression	Microsoft Excel	
Formula	Azure Data Lake	
	GitHub	

Correct Answer:

Components

Answer Area

Data source	Component
Microsoft Excel	Formula
Azure Data Lake	Connector
GitHub	Expression

QUESTION 99
DRAG DROP
A customer service department uses Microsoft Dynamics 365 Customer Service to manage repair requests. The repair team tracks their efforts using a Microsoft SharePoim hsr. The company must use Microsoft Power Platform to connect the repair team with the Dynamics 365 Customer Service solution The solution must meet the following requirements:

Requirement Number	Requirement
Requirement 1	From a custom page in the Dynamics 365 interface, allow the customer service team to input a repair number, view the details of the corresponding SharePoint list item, and add notes for the repair team.
Requirement 2	Create a report that visualizes real-time customer service information that the repair team can access online and use to create dashboards.
Requirement 3	Automatically send a Microsoft Teams message to a customer service agent and an email to the customer when a repair team member completes a repair.

You need to implement the appropriate technologies to meet the requirements.
Which technologies should you use? To answer, drag the appropriate technologies to the correct scenarios. Each technology may be used once, more than once, of not at an. You may need to drag the split bar between panes or scroll to view content
NOTE: Each correct selection is worth one point.

Select and Place:

Technologies

Microsoft Power BI

Canvas app

Microsoft Power Automate

Microsoft Power Virtual Agents chatbot

Answer Area

Scenario	Technology
Requirement 1	
Requirement 2	
Requirement 3	

Correct Answer:

Technologies

Canvas app

Answer Area

Scenario	Technology
Requirement 1	Microsoft Power Automate
Requirement 2	Microsoft Power BI
Requirement 3	Microsoft Power Virtual Agents chatbot

QUESTION 100
DRAG DROP
A company uses Microsoft Power Apps and Microsoft Azure to modernize its mobile workforce.
The company needs to identify solutions for three use cases:
* An app to audit retail store displays with a tablet-specific layout for its unique screen dimensions
* An app to create sales orders that uses business process flows
* An app to display product information that uses data for a Microsoft Dataverse instance, Microsoft
Excel, and Microsoft Sharepoint
You need to identify the correct app types to use.
Which apps should you use? To answer, drag the appropriate app types to the correct apps. Each app type may be used once, more than once, or not at all. You,may need drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth on point.

Select and Place:

App types

Logic

Canvas

Model-driven

Answer Area

App	App type
App to audit retail store displays	
App to create sales orders	
App to display product information	

Correct Answer:

App types

Answer Area

App	App type
App to audit retail store displays	Canvas
App to create sales orders	Model-driven
App to display product information	Logic

QUESTION 102
DRAG DROP
Match each type of Power Apps app to its capability.
To answer, drag the appropriate app type from the column on the left to its capability on the right. Each app type may be used once, more than once, or not at all
NOTE Each correct match is worth one point.

Select and Place:

App types	Answer Area	
Canvas app	**Capability**	**App type**
Model-driven app	Enables fully customizable layout, design, and color scheme	
	Connects to multiple data sources	
	Uses business process flows to guide users through a data entry process	
	Scans barcodes	

Correct Answer:

App types		Answer Area	
Canvas app		**Capability**	**App type**
		Enables fully customizable layout, design, and color scheme	Canvas app
Model-driven app		Connects to multiple data sources	Canvas app
		Uses business process flows to guide users through a data entry process	Model-driven app
		Scans barcodes	Canvas app

Explanation:

QUESTION 105
DRAG DROP
A company uses Microsoft power platform to manage support tickets.
Customers submit support requests by sending an email to a support email address.
All high-priority emails must be logged into a Microsoft Excel sheet for historical purposes.
You need to identify the components that are required for logging the email in Excel.
Which components should you use? To answer, drag the appropriate components to the correct requirements. Each component may be used once, more than once, or not at all. You may need to drag the spilt bar between panes or scroll to view content.
Note: Each correct selection is worth one point.

Select and Place:

Components

Action	Connector
Trigger	

Answer Area

Requirement	Component
Start a workflow when an email is sent to a specific email address.	
Evaluate whether an email is high priority in the flow by using a condition.	
Create a row in Excel with information about incoming high-priority email.	

Correct Answer:

Components

Answer Area

Requirement	Component
Start a workflow when an email is sent to a specific email address.	Trigger
Evaluate whether an email is high priority in the flow by using a condition.	Action
Create a row in Excel with information about incoming high-priority email.	Connector
