QUESTION 9

The entire list of recipients for a campaign is unavailable at the start of an A/B test. The final list of the recipients will be placed in the finalRecipients folder but they will be loaded by the time the A/B test is complete. To start the A/B test, a list of exclusive recipients is used for the initial deliveries in the folder testRecipients.

How should the Business Practitioner modify the workflow diagram?

- A. modify the existing query to query all recipients in folders 'testRecipients' and 'finalRecipients'
- B. modify the original query to all recipients in 'testRecipients' and modify the split activity to query the folder 'finalRecipients' in the complement
- C. add the enrichment after the wait to add all recipients in the 'finalRecipients' folder to the complement from the split activity
- D. modify the original query to all recipients in 'testRecipients': change the A & B branches to 50% each, and add a new query after the wait to get all recipients in the 'finalRecipients' folder

Correct Answer: B
